GLADIATOR™

The Invincible Coating

2K PROTECTIVE COATING

Strong. Simple. Safe.

GLADIATOR™

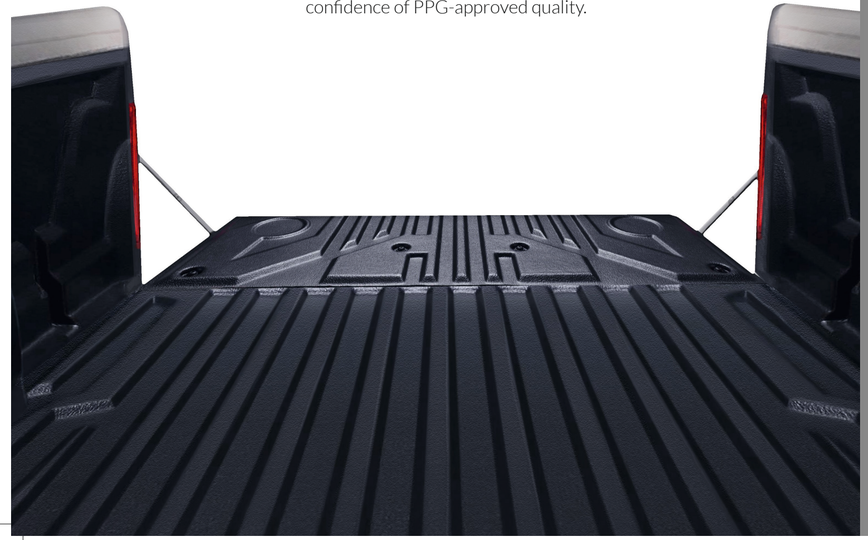
The Invincible Coating

Gladiator 2K Protective Coating is the safe choice for creating resistant and durable surfaces with a textured, semi-matt finish. After application, *Gladiator* coating hardens rapidly to form an anti-slip, all-weather coating that provides high chemical resistance and protection from scratches, chips and abrasion.

This highly versatile product is suitable for application to automotive and commercial vehicles, light industrial equipment and many more surfaces. Thanks to easy mixing and application processes as well as fast drying times, *Gladiator* 2K Protective Coating is guaranteed to deliver process efficiency for your paint shop.

Part of PPG product portfolio

Gladiator – 'The Invincible Coating' – is part of the PPG portfolio of paint and coatings and is backed up by the technical support, experience and knowledge that comes from a global market leader. Compatible with PPG's and ICR's primer and tinter systems, *Gladiator* opens the door to new business opportunities with the added confidence of PPG-approved quality.



GLADIATOR™ – 2K Protective Coating

Your benefits in a nutshell

Great mechanical resistance

Tough durability and damage resistance for a long-lasting finish.

- Excellent resistance to scratching and abrasion
- Flexible and crack resistant – certified according to ISO 1519 standards
- Strong adhesion – compliant with ASTM D 3359 for primed surfaces, sanded steel and fibreglass (GRP)

Resists against aggressive chemicals

Shields surfaces from the effects of harmful chemicals.

- Outstanding resistance to solvents, including toluene and xylenes – certified according to ISO 2812 standards
- Forms a secure barrier against diesel and hydraulic oil – certified to ISO 2812
- Tough resistance to corrosive substances – including sodium hydroxide and alcohol

Fast and efficient

Rapid drying and easy application for professional results.

- Unbeatable speed – touch dry in 30 – 40 min
- Easy application – pour hardener and tinter into the can, shake well and spray
- No need to change your workflow – *Gladiator* 2K Protective Coating is compatible with SELEMIX®, TURBO VISION®, DELFLEET ONE® and ICR SPRINTMIX tinters and primers

Gladiator-Applications

Quality and Confidence from PPG

Gladiator 2K Protective Coating comes along with a long heritage, developed and launched by Industria Chimica Reggiana (ICR) in 2019, and now part of the growing PPG product portfolio.

PPG is a market-leading supplier of paints and coatings around the globe, with products approved for use by many leading original equipment manufacturers (OEMs).

With a worldwide reputation for quality and performance, PPG is at the forefront of technology and innovation.
