

Invitation symposium Neonatal Cardiac Disease The Interplay between Heart and Brain

On the occasion of the thesis defense of Raymond Stegeman

**Congenital Heart
Disease Life Span**
PREVENTING COLLATERAL DAMAGE

**Brain in Congenital
Heart Disease**

Dear all,

It gives us pleasure to invite you to our symposium and the PhD defense of Raymond 'Neonatal Cardiac Disease:
The Interplay between Heart and Brain' on June 23rd in Utrecht.

The international symposium in honor of Raymond Stegeman his PhD thesis will bring together clinical and research experts from the fields of Pediatric Cardiology, Pediatric Intensive Care, (Neuro)Neonatology and Congenital Cardiothoracic Surgery, Anesthesiology, Radiology, Child Development and Obstetrics. The PhD project is part of the CHD LifeSpan research program, a collaboration between the above departments at the Wilhelmina Children's Hospital.

Since 2017 we have a strong collaboration between centers in Europe dealing with children with severe CHD: the European ABC (Association Brain in Congenital heart disease) consortium with colleagues from Zurich, London, Giessen and Munich, supported by the European Society for Pediatric Research. We are honored they will be participating this symposium as well.

Please find the program and information for registration below.

We are looking forward to seeing you in Utrecht 23rd of June!

Kind regards,

Manon Benders, Hans Breur en Koos Jansen

Program

9:00 - 9:20	Registration and coffee
9:20 - 9:35	Prof. Manon Benders Welcome
9:35 - 10:00	Prof. Serena Council Fetal and neonatal brain development and brain injury
10:00 - 10:25	Prof. Arend Bos Early neurodevelopmental outcome
10:25 - 10:50	Prof. Beatrice Latal Long-term neurodevelopmental outcome
10:50 - 11:20	Coffee break
11:20 - 11:55	Drs. Maaïke Nijman Perinatal neuroprotection and placenta-brain-axis
11:55 - 12:20	Dr. Yannick Taverne Neuroprotection around cardiac surgery
12:20 - 12:35	Drs. Joost Riphagen Role of parents in daily care and research
12:35 - 13:30	Lunch
13:30 - 13:55	Dr. Kim van Loon New insights in perioperative care
13:55 - 14:20	Dr. Joppe Nijman The future of big data and artificial intelligence at the PICU
16:15	Thesis defense Drs. Raymond Stegeman Neonatal Cardiac Disease: The Interplay between Heart and Brain

Faculty

Prof. Manon Benders, Neonatologist, Wilhelmina Children's Hospital, UMC Utrecht
 Prof. Arend Bos, Neonatologist, Beatrix Children's Hospital, UMC Groningen
 Dr. Hans Breur, Pediatric Cardiologist, Wilhelmina Children's Hospital, UMC Utrecht
 Prof. Serena Counsell, Perinatal Imaging and Health, King's College London
 Dr. Koos Jansen, Pediatric Intensivist, Beatrix Children's Hospital, UMC Groningen
 Prof. Beatrice Latal, Child Development, University Children's Hospital Zurich
 Dr. Kim van Loon, Pediatric Anesthesiologist, Wilhelmina Children's Hospital, UMC Utrecht
 Drs. Maaïke Nijman, PhD candidate, Wilhelmina Children's Hospital, UMC Utrecht
 Dr. Joppe Nijman, Pediatric Intensivist, Wilhelmina Children's Hospital, UMC Utrecht
 Drs. Joost Riphagen, Chair Stichting Hartekind, Amstelveen
 Drs. Raymond Stegeman, PhD candidate, Wilhelmina Children's Hospital, UMC Utrecht,
 and Resident in Pediatrics, Beatrix Children's Hospital, UMC Groningen
 Dr. Yannick Taverne, Cardio-thoracic Surgeon, Sophia Children's Hospital, ErasmusMC Rotterdam
