List of vendors and their purpose:

Cookie	Name	Purpose
Chatbot	UserId	Used by the webchat.botframework.com if you use the chatbot facility
Hotjar	_Beamer_First_Visit	This cookie is set by Beamer to store the date of this user's first interaction with insights. This cookie is set by Beamer to store an internal ID for a user.
	_Beamer_User_ID	This cookie is used to detect the first pageview session of a user. This is a True/False flag set by the cookie.
	"_hjAbsoluteSessionInProgress"	This is set to identify a new user's first session. It stores a true/false value, indicating whether this was the first time Hotjar saw this user. It is used by Recording filters to identify new user sessions.
	"_hjFirstSeen"	
	"_hjid"	Hotjar cookie that is set when the customer first lands on a page with the Hotjar script. It is used to persist the Hotjar User ID, unique to that site on the browser. This ensures that behaviour in subsequent visits to the same site will be attributed to the same user ID.
	"_hjTLDTest"	When the Hotjar script executes we try to determine the most generic cookie path we should use, instead of the page hostname. This is done so that cookies can be shared across subdomains (where applicable). To determine this, we try to store the _hjTLDTest cookie for different URL substring alternatives until it fails. After this check, the cookie is removed.
Kentico	CookieConsent	This cookie is used to remember a user's choice about cookies on tax.org.uk. Where users have previously indicated a preference, that user's preference will be stored in this cookie.
Universal Analytics (Google)	_ga _gat_UA-8489825-1 _gid	These cookies are used to collect information about how visitors use our website. We use the information to compile reports and to help us improve the website. The cookies collect information in a way that does not directly identify anyone, including the number of visitors to the website and blog, where visitors have come to the website from and the pages they visited. Read Google's overview of privacy and safeguarding data
Security breach notification form cookie	ASP.NET_SessionId	This cookie is essential for the breach notification form – the form that public electronic communications service providers use to notify the ICO of a security breach – to operate. It is set only for those people using the form. This cookie is deleted when you close your browser. Visit the Microsoft website
YouTube cookies	PREF* VSC*	We embed videos from our official YouTube channel using YouTube's privacy-enhanced mode. This mode may set cookies on your computer once you click on the YouTube

	VISITOR_INFO1_LIVE* remote_sid*	video player, but YouTube will not store personally-identifiable cookie information for playbacks of embedded videos using the privacy-enhanced mode. Read more at [YouTube's embedding videos information page.](#) PREF - * Expires after eight months VSC - * expires at the end of your session VISITOR_INFO1_LIVE - *expires after eight months remote_sid - * expires at the end of your session
Vimeo cookies	player vuid	We embed videos from our official Vimeo channel. When you press play Vimeo will drop third party cookies to enable the video to play and to collect analytics data such as how long a viewer has watched the video. These cookies do not track individuals.
