

## Instructions for Windows

1. Do you have an internet connection? If yes, proceed to step 2. If not, follow the steps at home while connected to your home network or use an 'eduroam visitor account'.
2. Open your Chrome or Firefox browser.
3. In the address bar enter: <http://wifiportal.uva.nl>
4. Scroll down and click 'Join now'.
5. Wait for the Security warning and select Run.
6. Wait for the UvA configuration screen.
7. Select 'next'.
8. Enter your UvAnetID + @uva.nl.
9. Enter your own UvA password.
10. Click 'next' and then 'done'.

Now, whenever you enter the UvA, your laptop will automatically connect to the UvA wireless network (WiFi) eduroam.
