

Environmental Policy Statement

As an employee-owned business with a determination to be “Altogether Better”, we are committed to the care of the environment, prevention of pollution and the efficient use of natural resources to ensure sustainable development. With due consideration of best practice, we set objectives to manage compliance and endeavor to exceed the requirements of current environmental legislation, our duty of care and the requirements of customers and other stakeholders.

We will act in a responsible and positive manner both internally and with our supply chain to:

- Maximise energy efficiency throughout our operation and with our customers
- Continually review improving and available technology in the provision and hire of equipment, to ensure wherever possible customers have access to modern, energy-efficient machines
- Manage and minimise waste production in accordance with the waste hierarchy: Prevent, Reduce, Re-use and Recycle
- Identify quantify and manage environmental aspects to be able to minimise their impact by implementing improvement programmes, demonstrated by measures and targets
- Promote the awareness and application of environmental best practice throughout our organisation and the wider industry
- Provide competent advice, direction and assessment to evaluate environmental performance and drive continual improvement

The Leadership Team is fully committed to providing ownership, leadership, direction and sufficient resources to establish, implement, and maintain the requirements of Environmental Standard ISO 14001:2015. This is an integral part of an integrated management system which aligns with the purpose and context of the organisation and supports its strategic direction.

This policy is published on our website, is available on request and is communicated to all our co-owners.

Rory Duggan

Managing Director
