DISCLAIMER:

- Please note that this request contains a CT and a WU request. If no HAC has been completed yet, the donor's availability has not yet been confirmed. In this case, the probability of the donor dropping out for medical or personal reason is increased.
- The blood samples from the donor will be collected at day of physical examination and are intended for the purpose of HLA testing on behalf of the above-mentioned patient. Excess blood volume is allowed for quality control testing only but not for research purposes.
- Courier for blood sample shipment will be chosen by the Donor Center. If you prefer a specific courier service inform the DC upfront.
- The results of the CT of the donor and a confirmation to proceed are required to be sent at least before conditioning of the patient or G-CSF injection of the donor.
