

HLA Typing Service

>> The next step in digitalization by implementing a partner area for you

A central platform for your requests

The DKMS Life Science Lab introduces the new partner area: a digital self service platform designed to simplify and accelerate partner interaction.

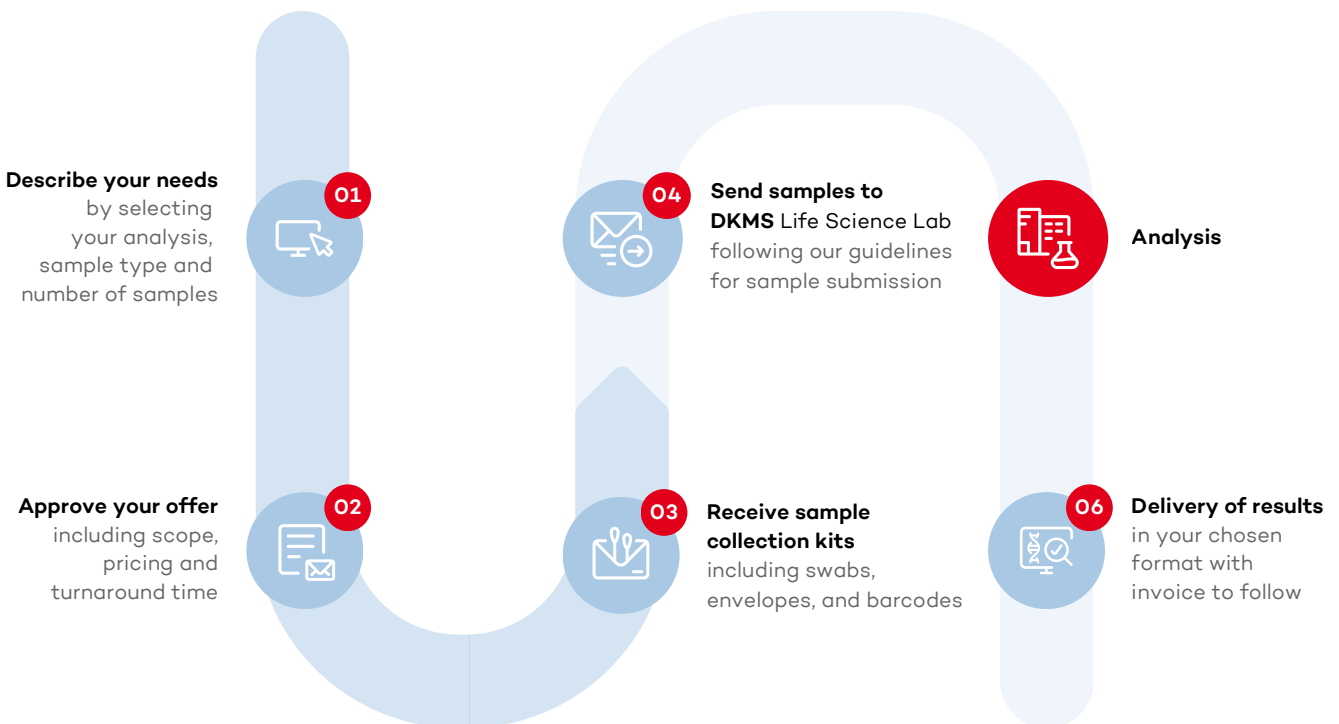

With our partner area, you can create and manage your requests independently, quickly and transparently in one central location. The platform enables a more efficient way of requesting quotes while maintaining the human connection and the possibility of individual communication.

Your pathway to your individual service

Together, we enable high quality genotyping

Choose the typing service that fits your needs:

	Service	Materials	Resolution (max)	HLA-class I & II	MICA/B / HLA-E / KIR	ABO / RhD / CCR5Δ32	CMV	Turn-around time (d)
High-throughput	Basic Profile	B / D / S	3-field	✓		✓		20
	Basic Profile with CMV	S	3-field	✓		✓	✓	20
	Extended Profile	B / D / S	3-field	✓	✓	✓		20
	Extended Profile with CMV	S	3-field	✓	✓	✓	✓	20
	CMV only	S	positive / negative / grey-zone				✓	20
In-house	NGS-LR-CL	B / D / S	4-field ¹	✓				7
	NGS-CE-CL	B / D / S	2-field	✓				7
CE-IVD	SSO-CE-CL	B / D / S	2-field	✓				3

¹ If a clinical report is generated, 2-field

Terminology

Materials: Specification of sample material types compatible with workflow

- B: Whole Blood
- D: DNA
- S: Buccal Swabs

HLA-class I:

- HLA-A, -B, -C

HLA-class II:

- HLA-DRB1, HLA-DQB1, HLA-DPB1,
- HLA-DRB3/4/5, HLA-DQA1, HLA-DPA1

Ready-to-use Sample Collection Kits

Swabs

Envelopes

Barcodes
