* MREC: Medical Research Ethics Committee (Dutch: METC)

** Medical Research Involving Human Subjects Act: Dutch WMO

***As of the 1th of July 2022, a rate will be charged for assessment of an IMPD in drug research protocols that are still submitted to the MREC under the CTD or an IMDD for MDR research. These rates will be in accordance with the rates of the CTR.

When amendments are placed on the agenda of a chamber meeting (instead of being assessed by the Executive Committee), a fee for review of a new submission may be charged.

As of 26 May 2022, the IVDR will be active. The above rates also apply to studies that are subject to this regulation.

Resubmission reduction 50%. This means the resubmission of the (entire) file following a previous withdrawal or negative decision. It does not refer to the assessment of the response and/or amended or additional documents in an ongoing review

**Effective as of 01-01-2022
Version September 2022**
