

Ad hoc announcement pursuant to Art. 53 LR

Publication of 2024 annual results postponed due to additional adjustments

Following the adjustments announced at the start of December 2024, a thorough review of the entire ORIOR Group was initiated. During this review, a valuation discrepancy was identified, primarily concerning the inventory of a unit, amounting to around CHF 10 million. In addition, around CHF 8 million of the adjustments already communicated in December 2024 in connection with the discontinued plant development project (CHF 20–22 million) will be reclassified with an impact on EBITDA. The aforementioned adjustments will likely lead to a restatement of the figures for the 2023 financial year, along with an impairment for the unit affected by the inventory valuation. Consequently, Guidance 2024 is no longer valid.

This means that the finalisation and review of the financial year will be delayed. The publication date for the results of the 2024 financial year and the outlook for the current year (new Guidance 2025) has been rescheduled to Wednesday, 2 April 2025.

On Wednesday, 5 March 2025, ORIOR will provide preliminary key figures for the 2024 financial year. This will include notes on all adjustments made and information on the most significant metrics from the past financial year. We will also provide an insight into the measures that have been implemented and taken, and the ongoing business activities.
