- a) up to an amount of CHF 614 656, corresponding to 153 664 fully paid registered shares through the exercise of option rights or purchase rights granted to the members of the Board of Directors or the employees of the Company and its subsidiaries in accordance with one or more share-based compensation plans;
- b) up to an amount of CHF 1 880 000, corresponding to 470 000 fully paid registered shares through the exercise of conversion and/or option rights granted to shareholders, creditors of bonds or similar financial instruments, or third parties.

The conversion and/or option conditions shall be set by the Board of Directors. The subscription rights of the existing shareholders are excluded. The Board of Directors is authorised, when issuing bonds or similar financial instruments, to restrict or cancel the shareholders' advance subscription rights in connection with: a) the financing (including refinancing) of the acquisition of companies, parts of companies, participations or new investment projects of the Company; or b) the issue on national or international capital markets or the issue to one or more strategic or financial investors.

The exercise or waiver of conversion or option rights shall be made by any means of communication allowing such exercise or waiver to be evidenced by text.

2.4 Capital band

The authorised capital was replaced by a capital band by the Annual General Meeting on 19 April 2023:

The Board of Directors is authorised until 18 April 2028 to conduct one or more increases and/or reductions of the share capital within the upper limit of CHF 28 049 596, corresponding to 7 012 399 registered shares with a nominal value of CHF 4.00 each, and the lower limit of CHF 24 861 116, corresponding to 6 215 279 registered shares with a nominal value of CHF 4.00 each. Capital reductions can be carried out either by reducing the nominal value of the shares or by cancelling shares. The respective issue price, number of shares, time of the dividend entitlement and issue, conditions governing the exercise of subscription rights and type of contributions (including in cash, contribution in kind, offsetting and conversion of reserves or profit carried forward into share capital) shall be determined by the Board of Directors. In this regard, the Board of Directors may issue new shares which are underwritten by a bank, a syndicate of banks or another third party and subsequently offered to the existing shareholders or to third parties (provided that the pre-emptive rights of the existing shareholders are waived or not

validly exercised). The acquisition of registered shares and the further transfer of the registered shares are subject to the restrictions as stipulated in Art. 5 and 6 of the Articles of Association.

The Board of Directors is authorised to restrict or withdraw the subscription rights of shareholders and to allocate them to individual shareholders, the Company or third parties (i) if the new shares are to be used to acquire another enterprise, parts of an enterprise or equity interests, or to finance investment projects or to finance or refinance any such transactions by the Company, or (ii) if the new shares are being placed nationally and internationally for the purpose of raising equity in a swift and flexible manner that would be difficult to arrange or only at much less favourable conditions if the pre-emptive subscription rights to the new shares were not restricted or withdrawn.

The Board of Directors may allow subscription rights that have not been exercised to lapse, or it may place these subscription rights, or registered shares for which subscription rights were granted but not exercised, at market conditions, or use them otherwise in the interests of the Company.

Within the limits of this capital band, the Board of Directors is also authorised: (i) to increase the capital by converting free reserves into share capital; (ii) to carry out capital reductions by means of a reduction in nominal value once or several times per year and to pay out the reduction amount to the shareholders after adjusting the Articles of Association; and, (iii) in the event of a reduction of the share capital, to determine, to the extent necessary, the use of the reduction amount. The Board of Directors may also use the reduction amount for the partial or full elimination of a share capital shortfall in the sense of Art. 653p CO or may, in the sense of Art. 653q CO, simultaneously reduce and increase the share capital to at least the previous amount.

After a change of the nominal value pursuant to Para. 4 (ii) of the Articles of Association, the Board of Directors is authorised to adjust the nominal value and the number of shares in Para. 1 accordingly and any new registered shares issued within the capital band shall bear the changed nominal value. In the event of an increase of the share capital from the conditional capital pursuant to Art. 3a of the Articles of Association, the upper and lower limits of the capital band shall be increased accordingly. The Board of Directors shall adjust the limits in Para. 1 accordingly.

The total number of registered shares issued (i) from conditional share capital according to Art. 3a of the Articles of Association where the shareholders' advance subscription rights were excluded and (ii) from the capital band according to Art. 3b of the Articles of Association where the shareholders' subscription rights were excluded may not exceed 654 239 registered shares, i.e. 10% of the existing share capital.

There are no further restrictions on shareholder registration. Any persons not expressly stating in their application form that the shares have been acquired for their own account and that no agreement on the redemption or the return of corresponding shares has been made and that they bear the economic risk associated with the shares ("Nominees") may be entered as shareholders in the share register with voting rights if the Nominee concerned is subject to a recognised banking and financial market supervisor and has entered into an agreement with the Board of Directors regarding its position. The total share capital held by the Nominee may not exceed 2% of the issued share capital of the Company. In excess of this limit, the Board of Directors may register Nominees in the share register with voting rights if the Nominees disclose the names, addresses, citizenship and shareholdings of those persons for which they hold 2% or more of the issued share capital. No nominees with voting rights exceeding the 2% limit were registered during the year under review. The introduction and deletion of restrictions on transferability in the Articles of Association requires a resolution of the Annual General Meeting with at least two thirds of the share votes represented and an absolute majority of the nominal share values represented.

2.9 Convertible bonds, options and entitlements to shares

The Annual General Meeting on 23 May 2024 approved a new, share-based, three-year LTIP with retroactive effect as at 1 January 2024 for the Executive Committee (see point 8.2.1 and 8.2.2 Compensation Report, p. 61 f). At a share price of CHF 41.20 (as at 31 December 2024), the maximum number of shares (with 100% degree of achievement) under the LTIP can be 12 328 registered shares of ORIOR AG, which would result in an increase in share capital of 0.19%, if all of these shares were created from conditional capital. All shares from the LTIP are subject to a minimum two-year holding period after distribution. Furthermore, there were no outstanding or planned convertible bonds, options or entitlements to shares in ORIOR AG or one of its subsidiaries as at 31 December 2024.

3.4 Provisions of the Articles of Association governing other activities and functions

According to Art. 19 Para. 1 of the Articles of the Association, members of the Board of Directors may simultaneously carry out no more than four additional mandates outside the Group in the supreme managing or supervising body of other listed companies, and six such mandates at unlisted companies. To the extent a member does not reach the maximum number of mandates at listed companies, the number of mandates permitted at unlisted companies increases accordingly. Subject to the approval by the Board of Directors, a member may exceed these limits for a short period of time.

There are no limits on activities at not-for-profit entities such as associations, societies and foundations.

A mandate shall be deemed to be any membership on the Board of Directors, on the executive management or on the advisory board, or a comparable function under foreign law, of a company with a commercial purpose.

Several mandates within the same group of companies and mandates performed as part of the member's position on the Board of Directors or Executive Committee or in a comparable function in a company with a commercial purpose (including in pension funds, joint ventures and legal entities in which a significant interest is held) are counted as one mandate.

With the exception of the positions already listed under “Members of the Board of Directors”, none of the directors holds any positions or exercises any activities of relevance to corporate governance in governing or supervisory bodies of an important organisation, institution or foundation under private or public law, in a permanent management or consultancy function for important interest groups or in a public or political office.

The members of the Board of Directors and the members of the Nomination and Compensation Committee are elected individually by the Annual General Meeting for a term of office of one year up to the end of the next Annual General Meeting. Re-election is permitted.

The Chair of the Board of Directors is elected by the Annual General Meeting for a term of office of one year up to the end of the next Annual General Meeting. Re-election is permitted. If the Chair is unable to perform his duties, the Board of Directors will appoint one of its members as interim Chair for the remaining term of office. If the Chair is absent, the Vice Chair or another member of the Board of Directors will represent them.

The Board of Directors constitutes itself subject to the provisions of the law and the Articles of Association. It appoints a Vice Chair from among its members and may designate a secretary who need not be a member of the Board of Directors.

Even for non-delegable and inalienable duties, the Board of Directors may form committees from among its members and entrust these committees or their individual members with the preparation and execution of its resolutions, the supervision of transactions and related special duties. The main role of the committees is to help the Board of Directors prepare the decision-making process, prepare resolutions and fulfil its supervisory obligations. The committees do not have the power to pass resolutions. Three specialist committees, the Audit Committee, the Nomination and Compensation Committee and the ESG Committee are appointed by the Board of Directors as standing committees.

The Board of Directors meets as often as business requires, but no less than six times a year. Between 1 January 2024 and 31 December 2024, the Board of Directors held a total of thirteen ordinary meetings and update video calls, eight of which were held in person and five via video conference. A two-day Board of Directors workshop was also conducted. No resolution was passed by circular letter. The ordinary meetings lasted around five hours on average, the update video calls were 45 minutes long, and the workshop lasted two days. Monika Friedli-Walser was absent from two meetings, while Monika Schüpbach, Walter Lüthi and Patrick M. Müller missed one meeting each. Apart from these absences, all members were in attendance at all meetings.

Any director may ask the Chair to call a Board meeting or to add an item to the agenda. Besides the directors, the Board meetings are attended by the CEO and CFO and may, depending on the agenda items, be attended by other members of the Management Team. The Board of Directors has a quorum if and as long as at least the majority of its members are present. Resolutions are passed by the majority of the votes of the members present. Each member has one vote. The Chair has the casting vote.

In addition, the Board of Directors evaluates, analyses, and discusses the Board's method of operation, quality (effectiveness) and composition once per term of office within the scope of a self-evaluation. This evaluation covers the performance of the individual Board members and Board Committee as well as the performance of the entire Board.

The self-evaluation of the Board of Directors for the current term of office focused on the efficient cooperation within the Board of Directors and the interaction with ORIOR's Executive Committee.

3.9 Audit Committee

The Audit Committee is a standing committee pursuant to Art. 4.1 of the Organisational Regulations that is formally appointed by the Board of Directors. Its main role is to help the Board of Directors fulfil its supervisory obligations to the extent that this concerns the integrity of the financial statements, compliance with legal and regulatory guidelines, the performance of the internal control system and appraisal of the performance of the internal and external auditors.

The Audit Committee consists of at least three members of the Board of Directors. In addition, the CEO, Daniel Lutz, occasionally attended the meetings without voting rights until October 2024.

3.11 ESG Committee

The ESG Committee is a standing committee according to Art. 4.3 of the Organisational Regulations, formally appointed by the Board of Directors. Its main task is to support the Board of Directors in the preparation of decision-making processes and resolutions as well as in the fulfilment of its responsibility and supervisory duty in environmental, social and governance issues. This committee was appointed by the Board of Directors to address the importance and relevance of ESG issues in a focused manner.

As a rule, the ESG Committee consists of at least three members of the Board of Directors. 3.12 Division of powers and responsibilities between the Board of Directors and the Executive Committee

The Board of Directors bears ultimate responsibility for the business activities and affairs of the Company and the Group. The Board of Directors has delegated responsibility for operational management of the Company to the Executive Committee within the limits imposed by law and in accordance with the Company's Organisational Regulations. The CEO chairs the Executive Committee and is authorised to issue instructions to the other members. The members of the Executive Committee conduct their day-to-day business on their own initiative within the framework of the corporate strategy, corporate targets and budgetary targets approved by the Board of Directors.

The demarcation lines between the responsibilities of the Board of Directors and the Executive Committee have been laid down in the Organisational Regulations of ORIOR AG.

- > Articles of Association of ORIOR AG: orior.ch/en/articles-of-association-of-orior-ag
- > Organisational Regulations of the Company: orior.ch/en/organisational-regulations-orior-ag

3.13 Reporting and control instruments in dealings with the Executive Committee

At each meeting of the Board of Directors, the CEO reports on the general course of business, any deviations from budget and significant business occurrences.

During the periods between meetings, the members of the Board of Directors receive monthly written reports on the general course of business and the Company's financial situation. These monthly reports contain up-to-date information on the course of business and detailed comments on the results of the Group, the individual segments and the competence centres. They also contain information on the Company's share price and developments relating to shareholder structure.

Once a year the Board of Directors holds a strategy workshop that lasts approximately two days to review strategic goals, risk management policy and the medium-range forward planning for the following three years, among other matters. In this context, the Board of Directors is directly informed about ongoing strategic and operational projects and the results achieved. In addition to the above-mentioned three-year plan, the Board of Directors also receives projections of the expected annual results on a rolling basis, at minimum twice a year.

Furthermore, the Chairman of the Board of Directors maintains close contact with the CEO. The course of business and all major issues of corporate relevance are discussed at regular meetings scheduled at least twice a month. Each member of the Board of Directors can request information on the course of the Company's business from persons entrusted with management of the Company. Any exceptional incidents must be reported to the members of the Board of Directors either by the CEO or the Chairman of the relevant committee without delay.

3.14 Risk management

The risk management system implemented by ORIOR for the Group as well as all business units serves as a forward-looking management tool and will ensure the Company's future viability. In 2022 and 2023, the existing risk management system was completely reassessed, leading to process restructuring, a more finely tuned concept, and an overhaul of the organisation and responsibilities. All of the benchmarks and principles of risk management at ORIOR are set out in the "Risk Policy and Guidelines 2022" internal regulations.

Ultimate responsibility for ORIOR's risk management rests with the Board of Directors. The Board works to ensure a clear organisational structure and effective measures and processes so that risk management can be carried out effectively. It also lays out the framework for the type and amount of risks that ORIOR is prepared to take on. The Board of Directors is informed periodically (at least once a year) about the current risks, status of risk management, and quality of the company's risk management. Risk monitoring and implementation controls are the responsibility of the Group CEO and the Group CFO. They appoint a chief risk manager at Group level and also define the additional organisational structure of responsibilities. The risk management system in place comprises three main areas: risk management for the business units, risk management for Group issues (including IT, corporate affairs, plant development, etc.) and the consolidated Group overview.

The annual risk identification carried out by the individual subsidiaries provides a starting point, with the main risks being assessed and evaluated in terms of probability of occurrence and extent of damage or losses. At the same time and based on these findings, the main risks are identified and assessed at Group level. The assessment takes place in four steps, both for the probability of occurrence and for the extent of damage or losses. The intensity of risk management and risk reduction measures are then determined on the basis of the resulting risk matrix.

The findings from the annual risk analysis are summarised in a comprehensive report, which also includes measures to minimise and/or manage all risks that exceed the risk tolerance limit. The annual risk report is discussed by the Audit Committee and subsequently approved by the Board of Directors.

In addition to this annual risk assessment, active risk management is an integral part of the planning cycles at the ORIOR competence centres. This is particularly crucial for monitoring existing risks as well as new risks that may arise during the year. Examples of this in the past include the sudden emergence of new risks related to the coronavirus pandemic, energy shortages and global unrest. As in the previous year, increased attention was paid during this reporting year to rising input costs, the challenging environment due to geopolitical crises, and the risk of cyberattacks.

3.15 Internal Control System

The Internal Control System (ICS) is constantly being expanded and improved. The ICS contributes to the continual improvement of ORIOR's business activities and is designed to ensure that the necessary procedures and tools for identifying and controlling risk are in place. It fulfils Swiss legal requirements and is adequate for the needs of a group of ORIOR's size.

The ORIOR Group's ICS is based on the COSO framework. Besides the controls for ensuring adherence to strategic and operating targets as well as regulatory compliance, the main priorities of the ICS are to monitor risks in connection with the financial reporting activities of all Group companies.

The external auditors perform appropriate test procedures to ascertain whether an ICS exists, which they must confirm in their audit report. In addition the effectiveness of the ICS and compliance therewith are reviewed on a regular basis by internal auditors.

3.16 Internal auditing

The internal auditors support the Board of Directors in fulfilling its tasks of control and supervision, particularly within the Group's subsidiaries. The internal auditors provide an independent and objective auditing and consultancy service aimed at creating added value and improving business processes. Internal auditing supports the Company in the achievement of its aims by using a systematic and targeted approach to evaluating the effectiveness of risk management, controls and management and supervision processes, and helping to improve these.

The tasks of internal auditing include the following activities:

- Auditing and assessing the appropriateness and effectiveness of planned and existing internal controls;
- Supporting the exchange of best practices and know-how within the organisation;
- Verifying the reliability and integrity of ORIOR's financial and operational information, including the ways and means for the identification, measurement, classification and reporting of such information;
- Verifying the systems established by management to ensure adherence to guidelines, work-flows, laws and statutory regulations that may have a significant influence on operations or on compliance;
- Checking and assessing the economic and efficient use of resources;
- Checking work processes and projects to ensure that specified targets are achieved and that work processes and projects are executed as planned.

The internal auditors are functionally independent and have no competence to issue instructions or make decisions in regard to any part of the Company being audited. They report directly to the Audit Committee. Administratively, the internal auditors are managed by the Executive Committee. Both internal and external resources can be used to carry out their tasks.

In cooperation with the Audit Committee, the internal auditors draw up a strategic audit plan at regular intervals, which is presented to the Board of Directors for approval. On the basis of this multi-year plan, an operational audit plan is devised by the internal auditors, setting out in detail the planned audits to be carried out over the following year. This plan is presented to the Audit Committee for approval. In addition the Board of Directors can issue special instructions to the internal auditors. In 2024, the focus has been on potential legal obligations in Germany.

Following each completed audit, the internal auditors draft a written audit report. In addition to the findings and recommendations of the internal auditors, this report contains input from management stating the planned measures in response to the findings of the report and the period of time required for the completion of these measures. The Executive Committee verifies the implementation of the defined measures and keeps the Audit Committee informed on an ongoing basis.

PricewaterhouseCoopers (PwC) was awarded the internal audit mandate for ORIOR from 2011 to 2023. At the Annual General Meeting on 23 May 2024, PwC was elected as ORIOR's new Company auditors. As a result, the internal audit mandate was transferred to KPMG Zurich. During the reporting year, the internal auditors did not attend any meetings of the Board of Directors or the Audit Committee. The external auditors are provided with information about the audit plan and the auditing activities of the internal auditors and have access to the reports of the internal auditors.

4. Executive Committee

Executive Committee of ORIOR AG:
Max Dreussi, Filip De Spiegeleire (CEO a.i.), Milena Mathiuet, Sacha D. Gerber (CFO) and Andreas Lindner (left to right).

The Executive Committee is responsible for the operational management of ORIOR and for all affairs which do not lie within the responsibility of the Board of Directors or another body according to the law, the Articles of Association and the Organisational Regulations. The delegation of duties and responsibilities by the Executive Committee to third parties or subordinate bodies is permitted. Ultimate responsibility for all Executive Committee tasks pursuant to the Organisational Regulations of ORIOR AG and the related decision-making authority rest with the CEO and the Executive Committee. The CEO issues the necessary regulations and arranges appropriate measures as required. To broaden the Company's leadership base and ensure the seamless cascading of information, geographically and/or thematically organised management committees have been formed to address overarching management tasks.

The Board of Directors is responsible for ensuring that the composition of the Executive Board, taken as a whole, represents a diversity that is appropriate and adds value to ORIOR, particularly in terms of expertise, experience and education.

4.2 Regulations in the Articles of Association on additional activities and vested interests

According to Art. 19 Para. 2 of the Articles of Association and subject to approval by the Board of Directors, members of the Executive Committee may simultaneously carry out no more than one additional mandate outside the Group in a listed company and two additional mandates in unlisted companies. A member may exceed these limits for a short period of time. There are no limits on activities at not-for-profit entities such as associations, societies and foundations. A mandate shall be deemed to be any membership on the Board of Directors, on the executive management or on the advisory board, or a comparable function under foreign law, of a company with a commercial purpose. Several mandates within the same group of companies and mandates performed as part of the member's position on the Board of Directors or Executive Committee or in a comparable function in a company with a commercial purpose (including in pension funds, joint ventures and legal entities in which a significant interest is held) are counted as one mandate.

¹ Shares from the allocation of shares to members of the Executive Committee with a blocking period until 31 December 2025 (see Annual Report 2022, p. 55 "Share allocation and share offer") and shares from the payment of the LTIP 2021 to 2024 with a blocking period until 31 December 2025 (see Annual Report 2023, p. 53 "Compensation from LTIP 2021 to 2023").

² Outstanding Performance Share Units to shares at an exchange ratio of 1:1 from the LTIP 2024 to 2026, calculated assuming a degree of achievement of 81.25% and at the share price (closing price) on 31 December 2024, rounded down to whole shares.

³ Outstanding Performance Share Units from the LTIP 2021 to 2023 as at the end of 2023, calculated using the effective degree of achievement of 62.5% and at the share price (closing price) on the last day of the LTIP vesting period (31 December 2023), rounded down to whole shares. This figure also corresponds to the number of shares actually issued to the members of the Executive Committee under the LTIP 2021 to 2023.

⁴ Newly elected to the Board of Directors on 23 May 2024.

⁵ Including participation of a related person.

⁶ New appointment to the Executive Committee on 1 November 2024.

⁷ Resignation from the Board of Directors as of 23 May 2024.

⁸ Resignation from the Executive Committee as of 11 November 2024.

Daniel Lutz, former CEO, holds 3 290 ORIOR shares with a blocking period until 31 December 2025. Apart from this, no other former member of the Board of Directors or Executive Committee holds ORIOR shares that are blocked.

Members of the Board of Directors and the Executive Committee are granted no special terms or rights when purchasing shares other than those offered under the share purchase offer.

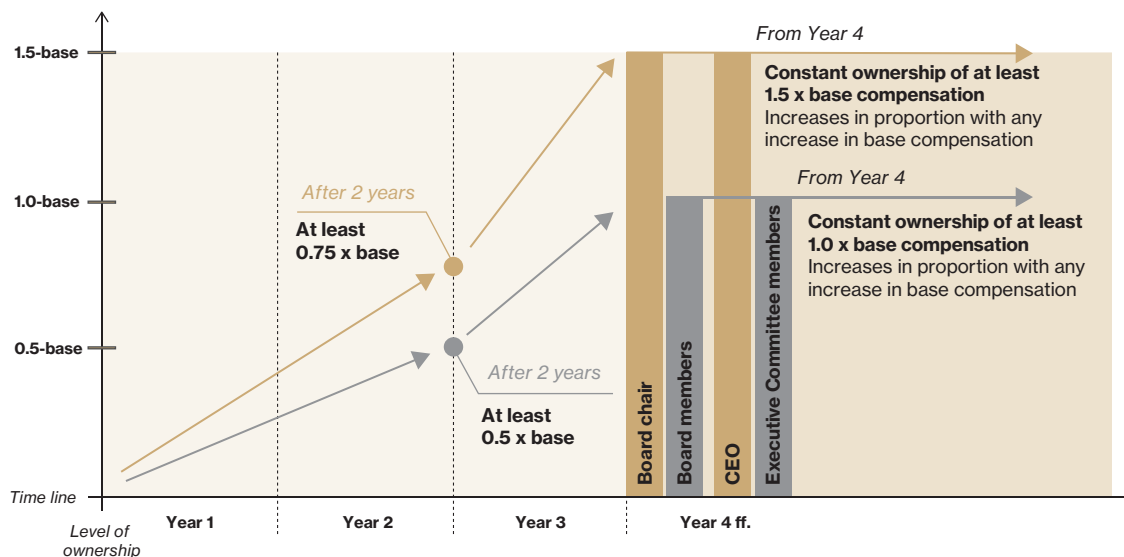

The members of the Executive Committee are included in a three-year, share-based LTIP (2024 to 2026). At a share price of CHF 41.20 (as at 31 December 2024), the maximum number of shares that could be issued under the LTIP would be 12 328 registered shares of ORIOR AG. Furthermore, there were no outstanding or planned convertible bonds, options or entitlements to shares in ORIOR AG or one of its subsidiaries as at 31 December 2024.

5.1 Minimum stock ownership requirements for members of the Board of Directors and the Executive Committee

The minimum ownership requirement for the Chairman and the CEO of ORIOR Group is 1.5 times their fixed salary; for all other members of the Board of Directors and the Executive Committee, it is 1.0 times their fixed salary.

The required ownership levels can be achieved through the share-based component of variable compensation, through share purchase plans or through purchases in the market. Individuals are expected to meet the minimum requirements within three years; at least half of the requirement must be achieved within two years. The basic requirements are defined in ORIOR AG's Organisational Regulations. The weighted average share price (VWAP) of the corresponding reporting period is used to determine the degree of achievement. In 2024, the weighted average share price was CHF 56.79.

Illustration of the regulation regarding minimum shareholdings:

As at 31 December 2024, four members of the Board of Directors as well as four members of the Executive Committee held the regulated minimum shareholding in ORIOR shares. Two members of the Board of Directors and one member of the Executive Committee did not meet the minimum shareholding requirement. The reason for this was the significant slump in share price performance. In accordance with ORIOR AG's compensation and shareholding principles, the Board of Directors decides on any measures to be taken in such a situation. In November 2024, the Board of Directors of ORIOR AG decided to extend the build-up periods by one year. The corresponding build-up periods for members of the Board of Directors and the Executive Committee have thus been extended by one year.

6. Shareholders' rights of participation

Restriction of voting rights and voting by proxy

Holders of registered shares are registered on request in the Company's share register, subject to their signature of a written statement expressly confirming that they have acquired the shares in their own name and for their own account and that no agreement on the redemption or the return of the corresponding shares has been made and that they bear the economic risk associated with the shares.

Share capital held by any single nominee must not exceed 2% of the Company's total issued share capital. The Board of Directors can permit registration of nominees holding shares (with voting rights) in excess of this limit, provided that the said nominees disclose the names, addresses, nationalities and shareholdings of the persons for whose account they are holding 2% or more of the Company's issued share capital. No registrations exceeding the 2% limit were made during the year under review.

At the Annual General Meeting, each share carries one vote. Voting rights can only be exercised if the shareholder is registered (with voting rights) in ORIOR AG's share register. A shareholder with voting rights can have himself or herself represented at the Annual General Meeting by written proxy, either by a representative appointed by him or her, or by the independent proxy. The Board of Directors ensures that shareholders can also use electronic means to give power of proxy and instructions to the independent proxy. All shares held by a shareholder can only be represented by one person.

Persons who have been involved in the Company's management in any way whatsoever must abstain from voting on resolutions granting discharge to the Board of Directors. The Company's Articles of Association contain no other voting restrictions and their provisions on voting by proxy conform to Swiss law.

6.1 Statutory quorum

Unless otherwise stipulated by mandatory law or by provisions contained in the Articles of Association, the Annual General Meeting of Shareholders passes its resolutions and confirms elections by an absolute majority of the votes represented. Abstentions are disregarded for the purpose of establishing a majority.

Should the first ballot in any election fail to produce a valid result and if more than one candidate is standing for election, the Chair orders a second ballot, which is decided by a relative majority of the votes represented. Abstentions are disregarded for the purpose of establishing a majority.

6.2 Convening of Annual General Meetings

Ordinary Annual General Meetings are convened by the Board of Directors and must be held annually within six months of the close of the Company's fiscal year. Invitations must be sent not less than 20 days prior to the date of the meeting. Extraordinary General Meetings take place as necessary, in particular in those cases stipulated by law. Annual General Meetings are called by the Board of Directors or, if necessary, by the auditors or a liquidator.

539 shareholders attended the Annual General Meeting on 23 May 2024. They represented 158 629 registered shares with a total nominal value of CHF 634 516. 3 656 182 votes with a nominal value totalling CHF 14 624 728 were submitted to the independent proxy for representation. Thus, a total of 58.31% of the total share capital, i.e. 3 814 811 registered shares with a nominal value of CHF 15 259 244, were represented. The Annual General Meeting approved all the proposals of the Board of Directors.

The Annual Report, the annual and the consolidated financial statements for 2023 were approved and a dividend of CHF 2.51 per registered share was adopted. Discharge was granted to the members of the Board of Directors and the Executive Committee. All of the directors standing for re-election as well as the Chairman were confirmed for a further term of office. Felix Burkhard and Patrick M. Müller were newly elected to the Board of Directors. Monika Friedli-Walser and Remo Brunschwiler were confirmed as members of the Compensation Committee, while Patrick M. Müller was newly elected to the committee. At the constitutive meeting of the Board of Directors that followed, the Board of Directors appointed Markus Voegeli for a further term of office as Vice Chairman and Chairman of the Audit Committee, Monika Friedli-Walser as Chairwoman of the Compensation Committee, and Monika Schüpbach as Chairwoman of the ESG Committee. In addition, PwC, Zurich, was elected as auditor for the 2024 financial year and Proxy Voting Services GmbH, represented by attorney Florence Mathier, was re-confirmed as the independent proxy. In addition, the Compensation Report 2023 submitted for a consultative vote, the report on non-financial matters submitted for the first time for a vote, and all proposals relating to the compensation of the members of the Board of Directors and the Executive Committee were approved.

6.3 Inclusion of agenda items proposed by shareholders

Shareholders whose sole or combined shareholdings represent in the aggregate not less than 0.5% of the Company's share capital or the voting rights can request inclusion of an item in the agenda of the Annual General Meeting or that a motion relating to an agenda item be included in the notice convening the Annual General Meeting. The respective motion must be submitted to the Board of Directors of the Company in writing no less than 60 days before the date of the meeting, specifying the item and the motions of the shareholder.

6.4 Entries into share register

Unless other cut-off dates are stipulated by the Board of Directors, no entries into the share register are permitted as from the date of dispatch of the invitations to the Annual General Meeting until the day after the date of the meeting.

7. Changes of control and defence measures

7.1 Obligation to make an offer

According to the Swiss Financial Market Infrastructure Act (FMIA), shareholders or a group of shareholders acting in concert who acquire more than 33.3% of the voting rights of a company domiciled in Switzerland and listed on an exchange in Switzerland are required to issue a public offer to acquire all listed equity securities of that company. Although it is possible to opt out of this mandatory offer obligation by amending the Articles of Association ("opting-out", Art. 125 Para. 3 FMIA) or to raise the minimum threshold for this mandatory offer obligation to as high as 49% of the outstanding ORIOR shares ("opting-up", Art. 135, Para. 1, FMIA), there are no such clauses in ORIOR's Articles of Association. Therefore, the aforementioned mandatory offer obligation is applicable without any restrictions in the case of ORIOR shares.

7.2 Clauses on changes of control

There are no change-of-control agreements with members of the Board of Directors or the Executive Committee or other executives. However, in the event of a change of control, the Company's compensation plans and stock ownership guidelines provide for immediate settlement as at the effective date of a change of control and thus the nullification of any vesting periods and holding

periods. In addition, in the event of a change of control, all provisions of the Company's compensation plans and stock ownership guidelines that provide for the granting of Performance Share Units and other stock-based compensation components will automatically be null and void with effect from the date of the change of control.

8. Auditors

8.1 Duration of mandate and term of office of the lead auditor

PwC, Birchstrasse 160, 8050 Zurich, Switzerland, was elected as auditor of ORIOR AG for the 2024 financial year by the Annual General Meeting on 23 May 2024. The lead auditor Gerhard Siegrist (partner) has held this position since 2024. In the years prior to this (2011 to 2023), Ernst & Young AG, Basel, were the auditors of ORIOR AG.

8.2 Auditing fees / additional fees

Auditing services consist of auditing work which needs to be performed in order to issue an opinion on the consolidated financial statements of ORIOR Group, the local statutory financial statements and the compensation report.

Financial year 2024

Audit fees:

The fees agreed with PwC (auditors) for the financial year 2024 for the fulfilment of its statutory mandate (including audit of the Consolidated Financial Statements and the Compensation Report) amounted to kCHF 627.

Additional fees:

For additional services in the financial year 2024, PwC invoiced a total of kCHF 143. The fees included kCHF 130 for tax consulting and kCHF 13 for legal advice.

Financial year 2023

Audit fees:

The fees agreed with E&Y (auditors) for the financial year 2023 for the fulfilment of its statutory mandate (including audit of the Consolidated Financial Statements and the Compensation Report) amounted to kCHF 410.

Additional fees:

For additional services in the financial year 2023, E&Y invoiced a total of kCHF 12 for tax consulting.

8.3 Supervision and control of auditors

The Board of Directors exercises its responsibilities for supervision and control of the auditors through the Audit Committee. The Audit Committee prepares an annual appraisal of the independence and quality of the auditors and the fees paid to them. The Audit Committee also examines the audit plan and scope as well as the results of the external audit. In addition the Audit Committee coordinates cooperation between the external auditors and the internal auditors.

Besides the auditor's report on the consolidated financial statements and the compensation report the auditor prepares a comprehensive report for the Board of Directors. This report contains the findings of its auditing activities (including an existence check on the internal control system) and its recommendations, as well as the status of findings and recommendations from previous audits. This report is discussed in detail with the Audit Committee. The Audit Committee also monitors whether and how the Executive Committee is implementing measures which have been approved on the basis of the external auditor's findings. To this end, the auditor will also draw up an annual status report for presentation to the Audit Committee. In addition the Audit Committee has regular meetings with the senior external auditors.

The external auditors participated in four meetings and telephone conferences of the Audit Committee in 2024, but they did not attend any meetings of the Board of Directors.

PwC was elected as auditor for the first time in 2024 by the shareholders of the Company. The grounds for the selection of PwC were customary criteria such as quality and cost of services.

The performance of the external auditors and the fees paid to them were reviewed in a questionnaire circulated to functionaries at Group level and to staff responsible for financial matters at the audited Group subsidiaries. The questions focused mainly on efficiency of the audit process, the auditors' technical knowledge of accounting principles and their understanding of Group processes and procedures, validity of the priorities addressed in the audit and justification of the audit fees.

The Audit Committee verifies that any additional services of the auditors not relating to the actual audit work are provided strictly within the framework of the regulations on independence of service providers. The auditors are required to confirm that their performance of these additional services will not affect the independence of their auditing mandate.
