

Giving hope **with DKMS**

Instead of giving Christmas gifts to customers and partners, this year we are supporting the lifesaving work of DKMS.

In Germany every 12 minutes someone is diagnosed with blood cancer, and worldwide it is even every 27 seconds. For many patients, their only chance of survival is to find a matching blood stem cell donor.

Our financial donation supports covering the cost of registering new potential blood stem cell donors, promotes access to therapies worldwide, and enables lifesaving research.

Show your support and give hope!
