

Accounting Firms & Institutes Group

About the UKEB

The UK Accounting Standards Endorsement Board (UKEB) is responsible for the endorsement and adoption of new or amended international accounting standards issued by the International Accounting Standards Board (IASB), for use by UK companies.

The UKEB has been established to also serve the public interest, by contributing to the research and development of high-quality International Financial Reporting Standards. Further, it consults publicly with UK stakeholders to influence the development of the standards and to highlight any concerns to the IASB at every stage of their projects.

The UKEB is committed to upholding the highest International Financial Reporting Standards and building on the UK's position as a leading financial centre, guided by the key principles of accountability, independence, transparency and thought leadership.

Further information about our role can be found on the [UKEB website](#).

The Advisory Groups

The UKEB is setting up four standing advisory groups, for Accounting Firms & Institutes, Investors, Preparers and Academics, and two ad hoc groups for Financial Institutions and Rate Regulated Activities.

The groups will not be decision-making bodies, but advisory, consultative groups which will share specialist knowledge and technical advice to assist the Board in its decision-making.

The Role

The Members of the Accounting Firms and Institutes Advisory Group will:

- Provide specialist knowledge and technical advice on:
 - a) IASB projects under consideration for endorsement by the Board, and influencing projects under development;
 - b) UKEB research projects;
 - c) market developments and financial reporting issues.
- Provide relevant and timely context and evidence on UKEB projects to support the Board in its decision-making;
- Contribute examples of best practice, practical experience, and expertise as well as potential solutions that can improve the quality of financial reporting;
- Amplify messaging to the market and their stakeholder communities of key financial reporting changes that are being proposed or have been finalised; and

- Prepare and/or contribute to the preparation of papers for discussion at the Group's meetings.

Members will have extensive subject matter expertise in their area.

The Positions

The UKEB is looking to recruit 8 – 12 Members for an Accounting Firms and Institutes Advisory Group, which will be chaired by a UKEB Board Member.

The Board will seek to ensure that the Group represents a diverse balance of skills, experience, and backgrounds. The Board will also seek to ensure that the group is diverse in terms of gender, race, and other characteristics.

Members should have a close interest in the use and implementation of international accounting standards. Members should have insights to share on the use of international accounting standards by a range of different sectors and on any concerns arising from that use. They may include individuals from large and medium-sized professional services firms in the UK, and from UK Accounting Institutes.

We would be particularly keen to hear from individuals who have a clear view of the bigger picture but who are also involved with the day-to-day application of UK-adopted international accounting standards. This should include practical experience of applying IFRS and IASB projects. Applicants with the relevant expertise and knowledge of technical issues are likely to be at a partner/experienced director or equivalent level within larger firms, or at a senior manager, or higher, grade within medium sized firms.

Essential criteria

- Proven background and expertise in financial reporting, and an understanding of the procedures used by the IFRS Foundation to develop standards and the UK framework for their endorsement and adoption;
- Good communication skills, including the ability to take part in constructive debate and provide reasoned arguments for their views;
- The ability to analyse complex issues, identify salient issues and to offer up potential solutions for further debate;
- The ability to influence and work collaboratively; and
- An interest in, and an 'ear to the ground' for, the concerns and difficulties of with financial reporting.
