Onerous contracts

...

68 This Standard defines an onerous contract as a contract in which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it.

68A The cost of fulfilling a contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract consist of both:

(a) the incremental costs of fulfilling that contract—for example, direct labour and materials; and

(b) an allocation of other costs that relate directly to fulfilling contracts—for example, an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling that contract among others.

69 Before a separate provision for an onerous contract is established, an entity recognises any impairment loss that has occurred on assets ~~dedicated to that~~ used in fulfilling the contract (see IAS 36).
