

DO THE SWAB

**Make an impact this Blood
Cancer Awareness Month**

Every 14 minutes, someone in the UK is diagnosed with blood cancer. For many, a stem cell transplant is their best chance of survival. You could be the matching donor they're waiting for.

- » If you're aged 16–55 and in general good health, register as a stem cell donor with blood cancer charity DKMS. It only takes a few minutes and three simple cheek swabs.

How to register as a stem cell donor

Head to dkms.org.uk/register
or scan the QR code to order
a free swab kit.
