The Mersey Gateway and Silver Jubilee Bridges provide **quick, easy and reliable routes** across the River Mersey in Halton.

Which plan is best for me?

For most people our Pre-Pay plan will be the best option.

- This gives you a discount of up to 10% each time you cross
- Pay an initial £5 registration fee and £20 credit
- Select the auto top-up feature then relax – every journey will be paid for and your chosen bank account or payment card will automatically top up your merseyflow account
- Choose to pay by Direct Debit for secure and easy payments
- As long as there is credit in your account you won't receive a Penalty Charge Notice.

If you are driving a car or a small van and you make **more than 50 one-way trips or 25 return journeys per month**, then one of our monthly pass options may give you an even better discount.

What happens if I don't register?

If you don't register you will have to pay the full unregistered toll/charge every time you cross the river.

What information do I need to register?

You will need to provide your name, address, vehicle registration number and have a payment method to pay for your plan.

Can I register without paying an initial fee and deposit?

Yes – you can register for a Pay as You Go account, but you won't get any discount on your crossings.

The Pay As You Go account is more suitable for occasional users.

There is no initial deposit or registration fee to pay and your payment gets taken automatically after your crossing.

What happens if I change my vehicle?

You can update your vehicle details by logging into your merseyflow account at merseyflow.co.uk, calling our Contact Centre, or visiting our local Walk-In Centre.

Can I register more than one vehicle on my account?

Yes – with our Pre-Pay plan you can register as many vehicles as you like on your account and would receive a sticker for each vehicle. It costs £5 per vehicle.

If you choose a monthly pass, you can register more than one vehicle, but will need to purchase a separate monthly pass for each.
