Interreg IT-AT Meeting: EU-contact persons

Online | 28.05.2024

Rainer Steindler

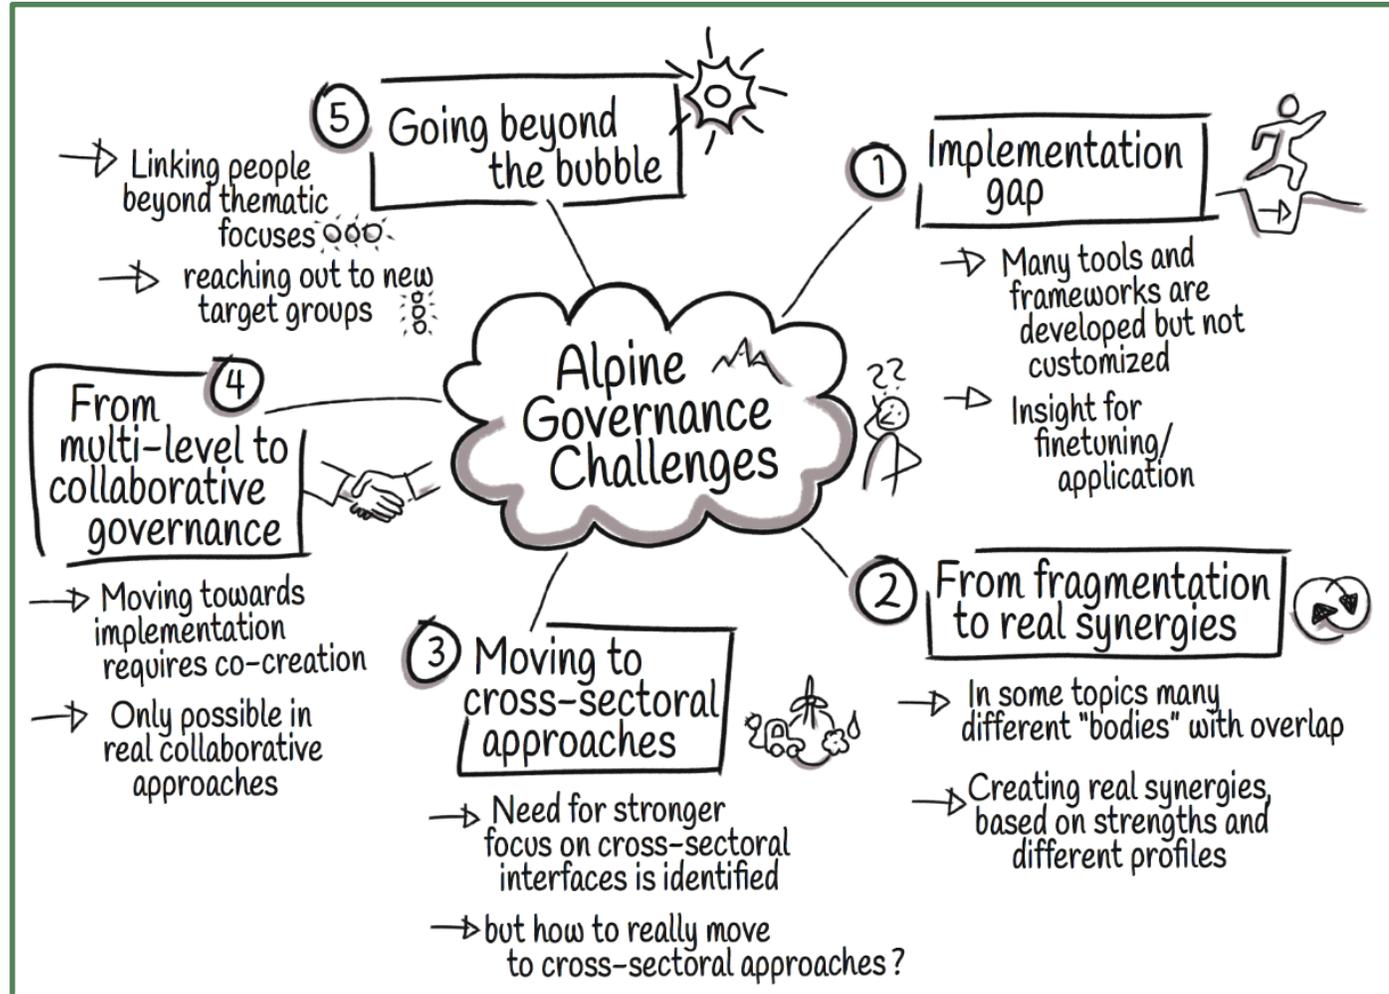

21/27

Thematic priorities

Small-scale projects - gouvernance call

Small-scale governance call

- Priority 4: cooperatively managed and developed Alpine Space
- Indicative financial envelope: 4,7 M € ERDF
- Why a governance call?
 - To:
 - deepen and evolve cooperation & governance structures
 - involve civil society
 - improve local governance in times of crisis and transformation
 - develop good practices and strategies originating from the needs of the territory
- Approaches can be new, even experimental to test new methods in a transnational network
- Solutions developed shall be anchored in practice

Our expectations

Project proposal should:

- Improve coordination between organisations -> **reinforce multi-level governance and cross-sectoral cooperation**
- Respond to territorial needs -> **foster integrated place-based approaches**
- Involve relevant stakeholders and citizens -> adopt **bottom-up and participatory approaches**
- Strengthen the skills, abilities and processes of stakeholders -> **develop capacities**

The composition of project partnership shall reflect these concept and ensure uptake

Small-scale governance projects

Projects can tackle governance challenges related to:

- the other three priorities of the programme
 - Priority 1 Climate resilient and green Alpine region
 - Priority 2 Carbon neutral and resource sensitive Alpine region
 - Priority 3 Innovation and digitalisation supporting a green Alpine region

Small-scale governance projects

- No need for “roll-out” or “set the scene” approaches
- Cornerstones:
 - 4 to 7 partners from at least 3 different partner states (LP: public)
 - 75% ERDF co-financing
 - Total budget: between 250.000 and 750.000 €
 - Duration: 12-24 months
 - Work plan: up to 2 work packages, max. 4 activities per WP, limit deliverables, outputs, results

Indicative actions

Build connections

- Set-up or consolidate transnational networks
- Build cross-sectoral communities

Foster innovative solutions

- Design, test, scale-up solutions to support governance
- Capitalise, replicate, transfer solutions from territories

Empower communities

- Support capacity building
- Strengthen local governance

Involve communities

- Engage civil society, youth & vulnerable groups
- Develop learning tools, exploit digital collaboration tools

Indicative actions

The call is not suitable for projects:

- Focusing on classic communication towards decision makers
- Establishing new Alpine cooperation structures or bodies
- Having an academic and research-oriented focus
- Having a main focus on infrastructure or development of IT tools

Timeline

Thank you!
