

Foundation Apprenticeship for

FA0006 Engineering and Manufacturing

v1.0

Level 2

Working in Engineering and Manufacturing

General engineering and manufacturing operatives are found in environments supporting, for example, production, maintenance, assembly of components and systems, machining operations, fabrication and welding and additive manufacturing functions. They may work across many sectors including automotive, aerospace, energy, advanced and general manufacturing. The apprentice will carry out general engineering and manufacturing tasks consistently using safe working practices, planning and organising resources, and completing tasks within timeframes.

.....

Entry requirements

The apprentice must normally be age 16 to 21 at the start of their apprenticeship. Exceptions to this are set out in the Department for Education Apprenticeship funding rules.
