

Highfield **Level 3** End-Point Assessment for **ST0795 Data** **Technician**

Government funding band – £12,000

On-programme duration – typically 24 months

Gateway requirements – achieved level 2 English and maths (optional for 19+, please see funding rules), submitted portfolio of evidence

End-point assessment method – scenario demonstrations with questioning, professional discussion underpinned by a portfolio

Overview of the standard

The data technician will source, format and present data securely in a relevant way for analysis using basic methods. They will communicate outcomes appropriate for their audience, analyse structured and unstructured data to support business outcomes and blend data from multiple sources as directed.

The programme's structure

The apprentice would typically work as a member of a team either office based or virtually. This will last 24 months, during which they will be supported while on-programme by their tutor. Their tutor will review the progress of the apprentice during this period against the standard to ensure they are prepared for the end-point assessment.

Your apprentice's journey

Ready for training

- Initial assessment
- English and maths training (optional for 19+, please see funding rules)
- On-programme training to meet the requirements of the standard
- Gateway readiness self-assessment

Set for assessment on completion of training and functional skills

End-point assessment methods are:

Scenario demonstrations with questioning

- This is made up of 2 scenario demonstrations, which will be carried out over a period of 90 minutes, with each demonstration taking 45 minutes. Questioning will be carried out over the course of the demonstrations.

Professional discussion underpinned by a portfolio

- This will last for 60 minutes. It is a two-way conversation between the apprentice and the assessor. The apprentice will be asked a minimum of 10 open questions.

Go further

On completion of the apprenticeship, apprentices may wish to progress into other roles in the data industry.

Available support

On-programme support

- Delivery resources
- Tutor support resource
- Innovative and multi-device e-learning courses

End-point assessment support

- Gateway and mock assessments
- Bespoke end-point assessment solutions
- Progression tracking system
- Staff training, standardisation, and support
