

## Waterborne and solventborne traffic paints

### A broad portfolio of traffic paint products for streets, highways, local, rural roads and parking lots

ENNIS-FLINT® by PPG Traffic Paint pavement markings offer a full line of traffic paints in both waterborne and solventborne formulations.

From highway striping to parking lot delineation, choose from our versatile selection of traffic paints for your next pavement marking project.

#### Formulations

Waterborne:  
Standard Dry, Fast Dry,  
High Build, Extended Season  
or DURASHEEN® dirt-resistant  
formulations

Solventborne:  
High-VOC or low-VOC  
formulations

#### Application

Waterborne: proven acrylic  
emulsion technologies;  
formulated for use between  
35-120° F (2-49° C)

Solventborne: co-polymer  
technology suitable for colder  
climates where waterborne  
cannot be used

#### Driver Safety

Fast Dry: minimizes traffic  
closures

High Build: dries to “no track” in  
under 3 minutes at 30 mils under  
standard conditions, with ability to  
hold retroreflective beads

Solventborne: versatile with quick  
dry times and extended durability

#### Compliance/Certification

Engineered to meet your federal,  
state, local or commercial  
specification

Facility is ISO 9001:2015 certified  
for the design, development and  
manufacturing of traffic paint
