PPG CORAFYLON® PLATINUM

We protect and
beautify the world™

PPG CORAFLO[®] PLATINUM

Embrace with color. Engage with color. Escape with color.

This innovative fluoropolymer powder coating technology is a unique combination of performance and beauty. It is AAMA 2605-certified, ensuring long-lasting durability in all colors, and has excellent corrosion resistance. It is the first high-transfer efficiency FEVE powder coating technology, providing applicators with ease of use and less overall powder usage and waste. It offers a wide range of colors, effects and glosses, and is able to achieve the popular and timeless anodized metal color. Embrace, engage and escape with the *PPG Coraflo* Platinum collection.

Performance

- Higher transfer efficiency, >20% improvement over standard FEVE powders
- Extended gloss range from 5 – 85 vs. 25 – 70 for FEVE products
- Improved corrosion performance on aluminum in a single coat
- Specifically formulated without major substances of concern (TGIC, PFOA, VOCs, and more)

Embrace

Today's designs reflect how our search for acceptance has created new ways of personal exploration.
