

PPG QUICKLINE™ NEWEST WATERBORNE SYSTEM

PPG QUICKLINE™

Not every bodyshop has the latest technical equipment, but all bodyshops need to be able to produce good quality paint finishes, regardless of application conditions. Introducing PPG QUICKLINE™ waterborne paint system that's specifically designed to work effectively in any environment.

Using proven technology as the basis for the development of the *Quickline* brand, the team focused on designing a robust waterborne system that has lower volatile organic compound (VOC) emissions that reduces air pollution and overall environmental impact.

Engineered for today's vehicles, our waterborne refinish system provides excellent color match, smooth blends, and fast cycle times with proper airflow. Lower emissions and easier compliance make it a smart choice for high-performance repair operations.

Make the switch now and take advantage of the new *Quickline* waterborne system—engineered to deliver consistent, good quality finishes in any bodyshop, under any conditions.

Reliable Performance in Any Condition

- Resistant to chipping, scratching, and environmental wear, maintaining finish integrity over time.
- Designed to work effectively across a wide range of application environments.

Application Made Easy

- **Smooth Sprayability:** Formulated for excellent atomization and flow, resulting in a consistent, even coat with minimal effort.
- **Good Metallic Control:** Provides excellent orientation and uniform distribution of metallic flakes for a consistent, good quality finish.

Versatile, Complete Product Range

- **Comprehensive Color Portfolio:** Offers a wide selection of basecoat colors and effect finishes to match OEM standards and custom requirements.
- **Flexible Additives and Reducers:** Features a range of reducers and additives to adjust drying times and application properties for different environmental conditions.

Right System for You

- **Balanced Performance and Affordability:** Offers an optimal combination of quality and cost-effectiveness tailored for mid-tier refinishing needs.
- **Consistent Color Matching:** Provides reliable OEM color matches to maintain vehicle appearance and customer satisfaction.

We protect and beautify the world*
