

# Make your own fairy door hanger!

Why not make a fabulous fairy door hanger to hang on your bedroom door?

It's really easy! Just ask an adult to help you with some of the cutting out!

## You will need:

- ★ a piece of thin white card
- ★ scissors
- ★ a ruler
- ★ coloured pens/pencils to decorate

## How to make

1. Colour in your door hanger and fill in your name on both sides.
2. Stick your door hanger on to some thin card and cut around the edges.
3. Using a ruler and some scissors, lightly score down the dotted line in the middle so you can fold your door hanger in half. (Ask an adult to help you with this and don't press too hard - you don't want to go all the way through the card!)
4. Once you've folded your door hanger in half, stick it together with some glue.
5. Cut through the dotted line and cut out the circle in the middle.
6. You're done! Now hang your door hanger on your door!
