# Health & Safety

## Highfield Level 3 International Award in Health and Safety for Construction Supervisors

---

This qualification has been developed for supervisors working in the construction industry.

Learners gaining this qualification will understand their role within a construction environment. Topics covered include: workforce responsibilities; how risk assessment ensures a safe construction environment and delivering a safety briefing.

### How long will it take me to achieve this qualification?

This qualification is usually obtained by taking a 2-day classroom-based course.

### How is the qualification assessed?

The qualification is assessed using the following methods of assessment:

- i. **Part one:** This component is assessed by multiple-choice question (MCQ) examination. This method of assessment is an end of course exam and must follow the Highfield Security and Invigilation Guidelines. The examination for this qualification contains 15 questions that must be completed within 30 minutes. Successful learners must achieve a minimum pass mark of 9 correct answers (60%) to pass.
- ii. **Part two:** This component is assessed by practical assessment where a learner must create and deliver a 10-minute safety briefing.

### What next?

Individuals achieving this qualification can progress onto the Highfield Level 3 Award in Risk Assessment (RQF) or Highfield Level 4 Award in Health and Safety in the Workplace (RQF) which is ideal for those wishing to work in management.

### Where can this course be taken?

Through any Highfield approved training centre.
