

# PPG Boundless™ CA6500 Series

Aerospace coatings solutions for light general aviation

# Aerospace Coatings Solutions For Light General Aviation

At PPG, we're proud to introduce PPG BOUNDLESS™ CA6500 series topcoats, our latest general aviation coatings solution specifically tailored for light aircraft and helicopters.

## Key Benefits

---

- Quick, comprehensive coatings solution with minimum downtime
- Excellent durability, buffability, and sandability
- Easy to apply, excellent flow and leveling properties
- VOC content <350 grams/liter
- HAP's-free and heavy metal-free formulations
- Resistant to hydraulic fluids, lubricating oils, diesel fuel and water
- Excellent gloss and color retention
- Quick dry with additional thinners
- Wide array of color palettes

PPG *Boundless* CA6500 series offers a total environmental coating solution for the light general aviator. From color matching and blending in customized sizes, to seamless delivery, application and appearance, this product provides a quick, innovative solution with minimum downtime. PPG *Boundless* CA6500 series is available in a wide array of color palettes to represent your identity and imagination.

PPG *Boundless* CA6500 series is comprised of low volatile organic compound (VOC) polyurethane coatings, which are designed to provide excellent durability, performance and appearance characteristics with minimal emissions of regulated VOC and volatile hazardous air pollutants (VoHAPS).

You can rely on PPG's technical service and sales professionals for advice on PPG *Boundless* CA6500 series application techniques, ease of use and post-purchase support.

PPG *Boundless* CA6500 aerospace coatings are available in the United States and Canada through PPG's application support center network. For more information, including product availability in other regions, or to place an order, contact your local PPG aerospace sales representative or visit [ppgaerospace.com](http://ppgaerospace.com).
