

Vrije Universiteit - Examination Regulations

These examination regulations apply to both centrally supported examination rooms (supported by IT and Corporate Real Estate and Facilities) and faculty supported examination rooms. In the interests of clarity and for the practical implementation of these examination regulations by invigilators, examiners and students, the decision was made to draw up one set of regulations for both types of rooms. As regards centrally supported examination rooms, Examination Boards are not free to deviate from the provisions outlined below as these are the Executive Board's conditions for the use of these examination rooms. As regards faculty supported examination rooms, Examination Boards are free to make any adjustments to their own faculty's provisions as they deem necessary in such cases, on the condition that the Examination Board in question clearly indicates these deviations and communicates any deviations to the invigilators, examiners, students and other stakeholders within the faculty¹. VU Amsterdam strongly advises avoiding or limiting deviations as much as possible and adhering to the provisions outlined below.

Adopted by the Executive Board on 7 July 2026.
