

Report of development dialogue for the Master's programme Management, Policy Analysis and Entrepreneurship in the Health & Life Sciences

To guarantee the quality of the educational programmes at VU Amsterdam, the programmes are assessed once every six years by a panel of external experts. The final assessment of the programme is conducted by the Dutch Flemish Accreditation Organization (NVAO). In addition to the assessment, the programme conducts a development dialogue with the panel, discussing possible improvements.

On 1 June 2026, the Master's programme Management, Policy Analysis and Entrepreneurship in the Health & Life Sciences was visited and judged as 'positive' by the panel. During the development dialogue, the panel and the programme discussed possibilities to strengthen the educational approach, ways to improve management internship and ways to navigate the current challenges facing higher education in The Netherlands.
