Appendix V: Minors

1. Minors of the Faculty of Science

Article 1.1 Bèta-minors

1. This is an overview of all minors that the Faculty of Science offers within the Bachelors, next to the VU-broad university minors. It is important that the student who wants to enroll in a minor applies in accordance with the rules. Additional entry requirements may apply and not every minor is open to students from every Bachelor programme.	Advice OLC; approval FGV (7.13 i)
1.1. A study programme can offer minors from other faculties, such as the education minor. These minors are not included in this overview as the Faculty of Science is not responsible for the content of these minors.	Advice OLC; approval FGV (7.13 i)
1.2. Students can enroll in minors according to article 12.2 of the TER.	
2. In the event of a deviation from the standard curriculum, it is considered a free minor, and the title and description of the minor will not be assigned. The Examination Committee cannot make an exception to this.
