Ellen Langemeijer

Ellen is Project manager at Chemistry and Pharmaceutical Sciences and AIMMS

Short biography

I'm a Life Sciences research project manager in Toxicology and Pharmaceutical sciences with 10+ years of experience in multi-stakeholder projects with academia, SMEs, pharma, and regulators. I connect people and love motivating young scientists (e.g. Marie Curie fellows).

My goal is to help VU scientists to develop technologies to bring safe(r) drugs to the market, for example by using fewer animal models and more new test methods (NAMs e.g. using stem cells).

Projects I work(ed) on are listed on my LinkedIn and VU research portal page. Additional VU internal activities include organization of the AIMMS research institute 2025 winter festival scientific program Workshops and follow-up. As interim internship coordinator for my department's students in FAR and DDS I improved OnStage for our Pls.

Curriculum Vitae

- 2018-present: EU Project Manager – CPS, Vrije Universiteit Amsterdam (VUA)
- 2013-2018: EU Project Manager MolTox, VUA & Managing director of Research Institute AIMMS, VUA
- 2011-2012: Postdoc on GPCRs at LACDR, Universiteit Leiden
- 2005-2010: PhD research with Prof. Martine Smit on viral GPCRs, CPS VUA

Education

- 2016 - 2018: MSc. Biomolecular Sciences – Vrije Universiteit Amsterdam
- 2013 - 2016: BSc. Biomedical Sciences – Vrije Universiteit Amsterdam
