CONSULTATION & TESTING

Code	Description	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate
8691	Consultant Pathologist in-patient consultation	Please refer to specific rule, with special reference and applicability to tertiary level hospital review only.	€ 181	€ 50
8899	Tests as listed for day case patients where clinically required.	This code will not apply for testing in respect of members attending for day case chemotherapy (all codes applicable to oral, subcutaneous or IV chemo administration) in these cases code 8900 will apply. *	€ 36	€ 17
8900	Tests as listed (in-patient only), where clinically required	This code will also apply for testing in respect of members attending for day case chemotherapy (all codes applicable to oral, subcutaneous or IV chemo administration).	€ 41	€ 21

CATEGORY 3

Code	Description	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate
8970	MSU + culture		€ 19	€ 7
9030	Sweat investigation		€ 18	€ 7
9045	Stool: ova, cysts and parasites (microscopy)		€ 19	€ 7
9050	Immunofluorescence - single antibody	For example ANF (not claimable with code 9392 or if this leads to typing in Categories 4 or 5).	€ 18	€ 10
9059	Catecholamine's and porphyrins	Once only per claim.	€ 18	€ 10
9060	Cholinesterase/ pseudo cholinesterase	Once only per claim.	€ 18	€ 10
9061	Acylcarnitine carnites - total and free		€ 18	€ 10
9100	Interpretive review of culture result, bacterial, any source, by consultant Microbiologist or Clinical Pathologist, with isolates where indicated with or without definitive identification of isolates to the genus or species level including any additional necessary tests.	This is not claimable in relation to screening swabs for MRSA (9101) or any other antimicrobial resistant organisms.	€ 19	€ 10
9101	MRSA or other antimicrobial resistant organism, interpretive review of culture from all screening swabs from the patient, for "at risk patients" only as defined by the SARI Infection Control Subcommittee and not for routine screening	Please note that Code 9101 is not payable during a side room, day case or 1 night only admission. Definition of "at risk patient" for MRSA testing: (a) Previously known as being MRSA positive (b) Transfers from a hospital or medical institution (c) High risk patients for cardiac surgery, implantation surgery (d) Deep Body cavity surgery (e) Members suffering from wounds or ulcers (f) Intensive Care Unit admission. If the patient has an MRSA or another antimicrobial infection, there is a general expectation that such re-test them, but only be payable at 3 day interval, unless specifically advised differently.	€ 19	€ 10
9202	Antibiotic assay	Maximum payable once per treatment episode.	€ 19	€ 10
9204	MIC - minimum inhibitory concentration		€ 19	€ 10

CATEGORY 3

Code	Description	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate
9207	Toxin levels (e.g. clostridium difficile/ botulinum) - exact toxin being investigated must be specified		€ 19	€ 10
9223	HIV, STD or hepatitis screen		€ 19	€ 10
9385	Interpretive review of viral, bacterial or fungal serology or viral culture by consultant Microbiologist or Clinical Pathologist		€ 19	€ 10

CATEGORY 4

Code	Description	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate
9160	Electrophoresis and chromatographic procedures (serum, lipoprotein, urine)		€ 34	€ 13
9175	CSF including oligoclonal bands		€ 36	€ 13
9180	Myeloma screen including electrophoresis		€ 34	€ 13
9182	Vitamins A, D or E		€ 35	€ 13
9205	Antibody identification (transfusion) (one or more antibodies)		€ 33	€ 13
9210	Haemoglobin electrophoresis		€ 33	€ 13
9226	Thrombophilia screen	This code consists of three or more of the following items: Antithrombin 3, Protein C, Protein S, APCR, Factor V Leiden mutation, prothrombin mutation, lupus anticoagulant, anti-cardiolipin antibodies, fibrinogen.	€ 34	€ 13
9507	Flow cytometry for CD4, CD8 and CD34 counts		€ 34	€ 13
9694	Gene rearrangement studies		€ 32	€ 13

CATEGORY 5

Code	Description	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate
9161	Gas chromatographic/ mass spectrometer for organic acid(s), assay		€ 70	€ 25
9270	Paraprotein typing		€ 72	€ 25

CATEGORY 5

Code	Description	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate
9301	Diabetic ketoacidosis/ hyperosmolar non-ketotic coma		€ 70	€ 25
9302	Acute renal failure		€ 72	€ 25
9303	Acute hepatic failure		€ 72	€ 25
9304	Dynamic endocrine function tests (insulin stress test, synacthen test, dexamethasone suppression test, water deprivation test)	Includes supervision, management, interpretation and report by Consultant.	€ 72	€ 25
9306	Porphyria investigation		€ 72	€ 25
9307	Full endocrinological investigation of infertility		€ 70	€ 25
9309	Full investigations for inborn errors of metabolism in paediatric patients	Does not include examinations from the National Newborn Screening Programme for inherited metabolic and genetic disorders and not claimable with 9359.	€ 72	€ 25
9312	Hypoglycaemia - not secondary to any previously diagnosed condition (includes hypoglycaemia associated with insulin overdose).	Investigation must include some or all of the following: (a) Insulin and C-Peptide, Ketones (b) Beta-hydro butyrate and acetoacetate (c) Non-esterified fatty acids (d) Cortisol and growth hormone (e) Lactate and Pyruvate.	€ 72	€ 25
9360	Surgical pathology, gross and microscopic examination, requiring examination of between 1 and 2 tissue blocks from specimen(s) retrieved during a single operation	When two or more tissue sources from separate sites require examination they must be assigned one code only reflective of the number of blocks necessary to examine. The separate sites must be available for identification on request. Skin lesion(s) are payable based on the total number of blocks it is necessary to examine and only one of codes 9360, 9530 or 9650 is payable. A total of only 5+ blocks from a specific site is payable under code 9650.	€ 75	€ 25
9381	Interpretive review of culture of CSF, blood by a consultant Microbiologist or a Clinical Pathologist		€ 72	€ 25
9391	Antisperm antibodies		€ 72	€ 25
9392	Immunofluorescence - autoantibody screen and/ or DNA Abs and/ or subtyping	Not claimable with Code 9050.	€ 72	€ 25
9393	Polymerase chain reaction		€ 72	€ 25
9605	Immune complex assays, not otherwise listed in Category 1		€ 72	€ 25

CATEGORY 6

Code	Description	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate
9501	Marrow aspirate, not immunocyto - see Category 8		€ 109	€ 39
9502	Marrow trephine		€ 109	€ 39
9503	HLA typing		€ 109	€ 39
9504	Immunofluorescence - microbial antibodies		€ 109	€ 39
9506	Electron microscopy		€ 108	€ 39
9508	Peripheral blood stem harvesting examination		€ 109	€ 39
9530	Surgical pathology, gross and microscopic examination, requiring examination of between 3 and 5 tissue blocks from specimen(s) retrieved during a single operation	When two or more tissue sources from separate sites require examination they must be assigned one code only reflective of the number of blocks necessary to examine. The separate sites must be available for identification if requested. Skin lesion(s) are payable based on the total number of blocks it is necessary to examine and only one of codes 9360, 9530 or 9650 is payable. A total of only 5+ blocks from a specific site is payable under code 9650.	€ 113	€ 39
9531	Cell block and smear examination from fine needle aspiration biopsy		€ 109	€ 39
9535	Lymph node		€ 109	€ 39
9539	Upper G.I. series		€ 113	€ 39
9540	Colonoscopy series		€ 113	€ 39
9541	Prostate series		€ 109	€ 39
9545	Parathyroid gland		€ 109	€ 39
9550	Clinical (i.e. non screening) cytology, not including smear + section, see Category 7		€ 109	€ 39
9604	Platelet aggregation studies		€ 198	€ 71

CATEGORY 7

Code	Description	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate
9601	Liver, renal biopsies including special stains		€ 203	€ 71
9603	Marrow aspirate and trephine done together (i.e. by same Pathologist)		€ 203	€ 71
9606	Multimer analysis for Von Willebrand disease		€ 203	€ 71

CATEGORY 7

Code	Description	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate
9650	Surgical pathology, gross and microscopic examination, requiring examination of more than 5 tissue blocks from specimen(s) retrieved during a single operation	When two or more tissue sources from separate sites require examination they must be assigned one code only reflective of the number of blocks necessary to examine. The separate sites must be available for identification on request. Skin lesion(s) are payable based on the total number of blocks it is necessary to examine and only one of codes 9360, 9530 or 9650 is payable. A total of only 5+ blocks from a specific site is payable under code 9650.	€ 203	€ 71
9670	Frozen section immunofluorescence - direct or indirect		€ 203	€ 71

CATEGORY 8

Code	Description	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate
9505	Immunocytochemistry		€ 259	€ 93
9691	Immunohistochemistry (includes fluorescence in-situ hybridisation)		€ 260	€ 93
9693	Frozen section for rapid intraoperative diagnosis		€ 256	€ 93
9695	Tumour aneuploidy by flow cytometry		€ 256	€ 93
9696	Gene re-arrangement studies for the diagnosis of leukaemia or lymphoma	This includes molecular isolation or extraction; enzymatic separation and nuclei acid probes.	€ 256	€ 93
965125	Molecular (genetic) testing of tumour tissue to determine suitability for specific Oncology therapies	This includes molecular isolation and/ or extraction; report and MDT attendance.	€ 259	€ 93

CATEGORY 9

Code	Description	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate
9700	All tests associated with obstetrics, including normal delivery, caesarean section and miscarriage		€ 105	€ 38
