CLOSURE

Code	Description	Payable with Private Rooms Technical Benefit	Pre-Approval Required	Payment Indicators	Payment Rules	Participating Consultant Surgeon/Physician Rate	Standard Consultant Surgeon/Physician Rate	Participating Consultant Anaesthesiologist Rate	Standard Consultant Anaesthesiologist Rate
1603	Wounds greater than 7.5cm in total length, suture or staple of lacerated or torn tissue, single or multi layered closure with or without irrigation or debridement (I.P.)	Yes	No	Independent Procedure, Side Room	For procedure code 1601, 1602, 1603, benefit includes wound closure by tissue adhesives (e.g. Two-cyanoacrylate) either singly or in combination with sutures or staples or in combination with adhesive strips. Wound closures utilising adhesive strips as the sole repair material may only be claimed under our out-patient products.	€ 135	€ 82	€ 208	€ 108

DEBRIDEMENT

Code	Description	Payable with Private Rooms Technical Benefit	Pre-Approval Required	Payment Indicators	Payment Rules	Participating Consultant Surgeon/Physician Rate	Standard Consultant Surgeon/Physician Rate	Participating Consultant Anaesthesiologist Rate	Standard Consultant Anaesthesiologist Rate
1578	Wounds or ulcers requiring debridement when it is medically necessary to perform the procedure under general anaesthetic (I.P.)	Yes	No	Independent Procedure, Day Care		€ 183	€ 62	€ 208	€ 67
1620	Complex wound(s) repair, (torn, crushed, deep) lacerations or avulsions requiring prolonged debridement and irrigation, extensive undermining and/or trimming of defect edges and multi-layered closure (involving deeper layers in addition to skin closure) with or without stents or retention sutures (I.P.)		No	Independent Procedure, Day Care		€ 375	€ 175	€ 229	€ 130

EXCISIONS

Code	Description	Payable with Private Rooms Technical Benefit	Pre-Approval Required	Payment Indicators	Payment Rules	Participating Consultant Surgeon/Physician Rate	Standard Consultant Surgeon/Physician Rate	Participating Consultant Anaesthesiologist Rate	Standard Consultant Anaesthesiologist Rate
1507	Angioma of skin and subcutaneous tissue or mucous surfaces, excision and repair of	Yes	No	Side Room		€ 183	€ 72		
1516	Destruction by cryotherapy or diathermy of actinic keratosis or warts, with or without surgical curettement - (initial session only) (I.P.)	Yes	No	Independent Procedure, Side Room	Initial treatment session only. Subsequent treatments within 60 days see code 1517.	€ 100	€ 51		
1517	Destruction by cryotherapy or diathermy of actinic keratosis or warts, with or without surgical curettement - (subsequent sessions, per session fee)	Yes	No	Side Room	Subsequent treatment sessions, per session fee. A subsequent session is where treatment is 60 days or less from date of previous treatment. Please include number of sessions and dates on Claim Form. Dates of treatment must be outlined on submitted claim form. Where further sessions are needed pre-approval is required. Repeat treatment of up to a maximum of four sessions (including initial treatment session).	€ 86	€ 67		
1531	Biopsies of the skin, subcutaneous tissue and/or mucous membrane including simple closure (I.P.) (the areas biopsied must be specified on the claim form)	Yes	No	Independent Procedure		€ 134	€ 45		
1546	Enucleation or excision of lipoma	Yes	No	Side Room		€ 156	€ 72		
1550	Malignant melanoma, wide excisional biopsy	Yes	No	Side Room	A copy of the histology report for all claims for this procedure must be available for review on request.	€ 356	€ 139	€ 215	€ 90
1551	Malignant melanoma, wide excisional biopsy with flap or graft repair	Yes	No	Day Care	If grafting is performed, the donor site for grafting material must be specified on the claim form and a copy of the histology report for all claims for this procedure must be included with the claim.	€ 758	€ 280	€ 378	€ 90
1561	Pilonidal sinus or cyst, excision of		No	Day Care		€ 506	€ 188	€ 312	€ 71
1562	Pilonidal sinus, excision of, with rhomboid flap/z-plasty for closure of large defect; multiple layer closure		No			€ 603	€ 267	€ 312	€ 149
1575	Basal cell carcinoma/ squamous cell carcinoma/ non melanoma - simple excision	Yes	No	Side Room	A copy of the histology report for all claims for this procedure must be included with the claim.	€ 361	€ 139	€ 208	€ 90
1576	Basal cell carcinoma/ squamous cell carcinoma/ non melanoma, excision and graft or local flap	Yes	No	Side Room	If grafting is performed, the donor site for grafting material must be specified on the claim form and a copy of the histology report for all claims for this procedure must be included with the claim. For this procedure (code 1576), if an earlier excision or biopsy (code 1575 or 1509) was performed within 6 weeks and the histology report confirmed BCC or SCC, then this code, 1576 may be claimed for the second procedure when repair is carried out in accordance with this codes description, with or without additional margin excision. Please include a copy of the original histology report that confirmed the earlier diagnosis of BCC or SCC.	€ 784	€ 280	€ 407	€ 90

EXCISIONS

Code	Description	Payable with Private Rooms Technical Benefit	Pre-Approval Required	Payment Indicators	Payment Rules	Participating Consultant Surgeon/Physician Rate	Standard Consultant Surgeon/Physician Rate	Participating Consultant Anaesthesiologist Rate	Standard Consultant Anaesthesiologist Rate
1581	Mohs micrographic technique, first layer (stage) for removal of lesions from head, neck, hands, feet, genitalia, or any location with surgery directly involving muscle, cartilage, bone, tendon, major nerves or vessels; up to five tissue blocks. (If the tissue layer is large enough that it must be cut into six or more specimens producing six or more blocks of tissue in order to examine the entire surgical margin, then use code 1596 for each block beyond the first five)		No	Side Room	<p>Conditions of payment for code 1581, 1582, 1583, 1584, 1596, 1597 and 1598:</p> <ol style="list-style-type: none"> (1) Lesions located in anatomic areas with high risk of recurrence of tumour. These areas would include involvement of the face ,especially around nose, eyes, mouth and central third of face), external ear and tragus, temple, scalp, mucosal lesions and nail bed and periungual areas; or (2) Areas of important tissue preservation, including the face, ears, hands, feet, perianal and genitals; or (3) Recurrent or incompletely excised malignant lesions, regardless of anatomic regions; or (4) Previously irradiated skin areas in any anatomic region; or (5) For exceptionally large (>/= 2cm in diameter) or rapidly growing lesions in any anatomic region; or (6) tumours with aggressive histological patterns: basal cell carcinoma (BCC) morpheaform (sclerosing), basosquamous (metatypical or keratinising), perineural or perivascular involvement, infiltrating tumours, multicentric tumours, contiguous tumours (i.e. BCC and SCC): squamous cell carcinomas (SCC) ranging from undifferentiated to poorly differentiated and SCCs that are adenoid (acantholytic), adenosquamous, desmoplastic, infiltrative, perineural, periadnexal or perivascular; or (7) Tumours with ill defined borders; or (8) SCC associated with high risk of metastasis, including those arising in the following; Bowen disease (SCC in-situ); discoid lupus erythematosus; chronic osteomyelitis; lichen sclerosis et atrophicus; thermal or radiation injury; chronic sinuses and ulcers; and adenoid type lesions (9) The consultant performing Mohs surgery - usually a consultant Dermatologist - must have a special interest in Mohs surgery as demonstrated by <ol style="list-style-type: none"> (a) having completed a recognised fellowship training in Mohs surgery of a duration of at least one year in an approved training centre (b) providing Irish Life Health healthcare with a letter from the training programme director certifying that the consultant has practised Mohs surgery on a multitude of skin cancer types and achieved an in-depth experience in reconstruction such that the consultant can practise Mohs unsupervised (c) providing Irish Life Health healthcare with a training log of completed Mohs surgery cases validated by the training programme director - on request. If repair requiring adjacent tissue transfer or multi-layered closure (involving deeper layers in addition to epidermal and dermal closure, with or without undermining) is performed, use ONE of code 1597 or 1598, which is payable in full with the Mohs codes listed, In some cases the repair may be carried out by consultant Plastic Surgeon. If an In-patient stay is medically necessary for extensive repairs, this should be fully documented on the claim form. Each case will be assessed on an individual case basis. 	€ 662	€ 287
