Purpose

registry clinical research other
..... number of samples

Sample submission

regular one-time
 per year per week

Sample material buccal swabs whole blood DNA other

Best Price Genotyping • High Throughput Lab

HLA high resolution

A DRB1 DRB3/4/5
 B DQB1 DQA1
 C DPB1 DPA1
 E

Further genes

KIR allelic group level
 presence/absence
 ABO RhD
 MICA MICB
 CCR5Δ32

Further analysis

CMV status (Cytomegalovirus), IgG antibody testing

Turnaround time

15-20 working days

Clinical Genotyping

HLA whole gene / long range / high resolution

A DRB1 DRB3/4/5
 B DQB1 DQA1
 C DPB1 DPA1

Further analyses after consultation only

antibody screening and specification tests
(CDC and Luminex)
 crossmatch testing (CDC)

Turnaround time

5-7 1-3 working days

Use of CE-IVD reagents

required
