

GLIO Index

The GLIO Index Series is a free float weighted index tracking the performance of the leading and most liquid infrastructure companies worldwide. Only companies with a free float percentage of at least 15%, a free float market capitalization above 0.02% of the overall GLIO Index and a minimum average trading volume of greater than 25% of free float shares over twelve months, are eligible for inclusion.

10 CSX Corp	\$ 65,202	2.50%

Continent Breakdown

Customization possibilities

Besides the plain vanilla indices GPR offers a vast amount of customization possibilities.

- Any group of continents, countries or constituents can be capped or fixed to reduce or increase its weight;
- Concentration constraint imposed by the UCITS Directive can be implemented;
- All indices can be hedged partially or fully to any currency to reduce the possible currency risk;
- Dividends can be reduced using client specific Withholding Tax percentages;
- Indices can be developed not based on market capitalization, but on Fundamental Indexation factors.
