

Voice Up

A unique opportunity for you to enhance your employability skills by using your voice and advocating for change in your local community.

About the Programme

Voice Up, a free programme run by Sculpt UK, is a youth voice and employability programme that will provide skill developing opportunities for young people to become wellbeing champions in their local communities. Through a four-week programme, you will engage in skill building workshops where you will not only learn how to look after your own mental health and wellbeing, but will also discover innovative ways of using your voice to tell your stories, advocate for community level change and become active leaders within peer-peer support groups. This is a fantastic experience to add to your CV to make you stand out from the crowd!
