

Awards, Distinctions and Overall Pass List

The Chartered Institute of Taxation (CIOT), the principal body in the United Kingdom concerned solely with taxation, announced today the results of its ADIT examinations held on 8, 9 and 10 June 2021. In one of the largest ADIT exam sessions to date, 780 students sat a total of 874 exams in 61 countries around the world via the CIOT's online exam system.

589 students passed at least one June 2021 ADIT exam; six students sat and passed all three exams in June 2021.

A total of 126 students (fifteen of whom have achieved a distinction) have completed ADIT in the last six months, including the first ADIT graduates in Oman. The ADIT qualification is now held by 1,453 tax practitioners in 86 countries and territories.

CIOT President Peter Rayney, commenting on the results, said:

“On behalf of the Institute, I extend my congratulations to the nearly 600 ADIT students around the world who passed an exam in June, and in particular those who have now completed the ADIT qualification.

“The ADIT exams are highly valued by tax employers worldwide as offering international tax professionals the ability to develop, demonstrate and apply their technical knowledge and skills, giving firms and clients the utmost confidence in the expertise of those who hold the ADIT qualification. Students who have reached the strong standard necessary to pass the exams should therefore feel very proud of their success.

“New ADIT graduates are invited to continue their relationship with us by subscribing as International Tax Affiliates of the CIOT; we aim to support international tax professionals throughout their careers, and the Affiliate package features a wide range of benefits including free or discounted access to a growing suite of online tax events.

“Alongside those completing the ADIT qualification, we are also able to celebrate the accomplishments of 39 students who have completed the ACA CTA Joint Programme having passed one of the available ADIT options as part of their Joint Programme studies, and we look forward to welcoming them as members of the CIOT.

“The latest cohort of ADIT graduates includes fifteen who have attained the top distinction grade. Those who achieved the highest marks for the various exam options have been awarded medals or prizes in recognition of their achievement, including the inaugural Tom O’Shea Prize which we have established in honour of the late Dr Tom O’Shea, who was Director of the Academy of European and International Taxation and played an enormous role in the development and success of the ADIT qualification. Tom is much missed by all at the CIOT who worked with him.”

Awards

The Heather Self Medal for the best overall performance in Module 1 Principles of International Taxation

The medal has been awarded to Mr Aaron Parks of Cambridge, United Kingdom.

The Raymond Kelly Medal for the best overall performance in Module 2.09 United Kingdom option

FOR INFORMATION:

Our goal is to make ADIT a truly international qualification. As this vision is realised, tax practitioners moving from one country to another will share a globally recognised qualification that sets a global benchmark in international tax expertise. The ADIT standard is supervised by an Academic Board of distinguished and highly respected international tax professionals.

ADIT is a modular qualification with three modules, of which one optional module may be substituted with an extended essay. ADIT is a free-standing qualification which will not give the right to membership of the Chartered Institute of Taxation. However, ADIT holders may apply to become an 'International Tax Affiliate of the Chartered Institute of Taxation'. This ongoing link entitles the individual to use the designatory letters 'ADIT', and a number of additional benefits.

The Chartered Institute of Taxation (CIOT) is the leading professional body in the United Kingdom concerned solely with taxation. The CIOT is an educational charity, promoting education and study of the administration and practice of taxation. One of our key aims is to work for a better, more efficient, tax system for all affected by it – taxpayers, their advisers and the authorities. The CIOT's work covers all aspects of taxation, including direct and indirect taxes and duties. Through our Low Incomes Tax Reform Group (LITRG), the CIOT has a particular focus on improving the tax system, including tax credits and benefits, for the unrepresented taxpayer.

The CIOT draws on our members' experience in private practice, commerce and industry, government and academia to improve tax administration and propose and explain how tax policy objectives can most effectively be achieved. We also link to, and draw on, similar leading professional tax bodies in other countries. The CIOT's comments and recommendations on tax issues are made in line with our charitable objectives: we are politically neutral in our work.

Our 19,000 members have the practising title of 'Chartered Tax Adviser' and the designatory letters 'CTA', to represent the leading tax qualification.
