

Please tell us about income you've earned from online marketplace sales

We have information that shows you've earned income from online marketplace sales up to the tax year ending 5 April 2023. You need to tell us about this income. This is because you may owe tax.

You're likely to be trading if you buy or make goods to sell at a profit. This means you may have to pay tax on your profits.

You're unlikely to pay tax if you sell personal items from your home. For example, contents of a loft or garage. However, depending on the items you sell and how much you sell them for, you may need to pay Capital Gains Tax. This applies to selling personal possessions where the item is worth more than £6,000.

For more information, go to [GOV.UK](https://www.gov.uk) and search 'Check if you need to tell HMRC about your income from online platforms'.
