3. Write down for yourself what your first response is to the statement. Discuss your responses together.
4. Open discussion: try to formulate a reply to the statement or question. If you do not agree, note what you disagree on.
5. Formulate a brief conclusion to share plenary during the wrap-up.
6. Share your notes and/or recording with the secretary.

Discussion topics

1

1. Should we utilize AI in education? Should teachers and staff integrate programs such as ChatGPT into education?

2

With new developments in AI, questions emerge about the opportunities, risks, and ethics of its use. Who is responsible for addressing developments in AI that affect education? Are UvA-wide policies needed, or not?

3

Statement: the UvA should establish clear guidelines on the collaboration with the companies behind AI.

4

Statement: If our way of testing becomes more susceptible to fraud due to developments within AI, then we should adjust our testing.

Statement: the UvA is responsible for the digital literacy of its students and staff.
