EVERY DAY, AN AVERAGE OF

**1,900**

STEM CELL DONORS REGISTER WITH DKMS GLOBALLY

Global Confirmatory Typing Availability

Learn more: [professional.dkms.org](https://professional.dkms.org)

**29%**

OF ALL STEM CELL DONORS WORLDWIDE ARE DKMS DONORS

## DONORS TYPED

DKMS currently types all new donors at high resolution for HLA-A, -B, -C, -DRB1, -DQB1, -DPB1 through Next Generation Sequencing (NGS). We also analyze CMV status, CCR5 $\Delta$ 32 (presence/absence of mutation) and ABO/Rhesus factor.

**10.3 Million+**  
Typed for HLA-A, -B, -C  
-DRB1, -DQB1, -DPB1

**8.5 Million+**  
Typed for CCR5  $\Delta$  32

**5.8 Million+**  
Typed for CMV status

**37%**

blood collection within 8 days after CT request

**75%**

of all DKMS donors donate for patients abroad

DKMS operates in:

Germany  
USA  
Poland
