¹ Cancellation and postponement fees are only incurred if the request is cancelled by the transplant center or patient registry. There are generally no fees for donor related cancellations or postponements.

² Other infectious disease markers outside the standard profile must be tested by your own laboratory unless settled separately. We can provide an additional blood sample for this purpose.

³ IDM results are only valid for 30 days.

- In case of postponements or other collection delays they may have to be repeated.
- If more than 3 months pass between the physical examination and the planned collection date, blood counts (blood chemistry) have to be repeated.
- If more than 6 months pass, the physical examination has to be repeated.
