20 years of developing home ownership solutions

Shared ownership is a simple, affordable way to buy a home without needing a large mortgage, or the deposit that goes along with it.

You purchase an initial share in your home and pay a discounted rent on the rest. Then, as your finances allow, you can buy further shares in your home as and when you choose. Usually you'll also only need a 5% deposit of your share, rather than the total property value. So as long as you are over 18, your household income is less than £80,000 and you don't already own a home (at the time of buying your shared ownership property) then shared ownership could be for you.

Renting your home at Wapping Wharf is the perfect opportunity to experience life at Bristol's newest quarter.

Our dedicated rentals team will guide you from discussing your requirements through to viewings and referencing, allowing us to hand over the keys to your new home in the minimum time frame. Our service doesn't end there; we ensure the properties we own and manage benefit from all the necessary legal and safety testing, and should you ever have any issues our experienced team of property managers will be on hand to resolve them. For added peace of mind we are members of the National Landlord Association and the Deposit Protection Service so you know you are with a landlord you can trust.
