Carbon emissions

An average household produces	6 tonnes of CO ₂
This property produces	1.0 tonnes of CO ₂
This property's potential production	-0.2 tonnes of CO ₂

You could improve this property's CO₂ emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Steps you could take to save energy
