The identity of accredited centres and institutions will be published on the JACIE website and in other JACIE communications. If this accreditation is referred to any publicity by your organization, please be certain to specify the areas for which it is accredited.

JACIE Accredited centres must notify the JACIE Accreditation Office of any changes to facilities and/or key personnel as soon as they are implemented by completing the Changes Affecting Accreditation Report.

In addition, as part of the 4-year accreditation period, centres are subject to a focused Interim Audit at the end of the second year of accreditation. More information on the Changes in Accredited Centres and the Interim Audit processes is available at <https://www.ebmt.org/jacie-accreditation-process>. Centres awarded accreditation for a period less than 4 years will not be subject to the interim audit but are required to inform proactively JACIE of any changes to their Programme.

We would like to take this opportunity to offer our sincere congratulations to you and your staff for the tremendous effort you have made. It is well recognized that the workload that a centre takes on when preparing for accreditation is significant, but we are confident that you and your staff are already seeing the benefits of this investment in all aspects of your work.

Yours sincerely,

Lynn Manson
