

**Excellent
Transportation
Services.
From Local to
Worldwide.**

Trade Trans Group Romania

Trade Trans Group consists of several independently managed forwarding and logistics companies. We are a single source provider of a large variety of logistics services in several of the main railway corridors in Europe. In cooperation with well known forwarding and railway companies we assure reliable service as well as attractive freight management.

Railport Arad

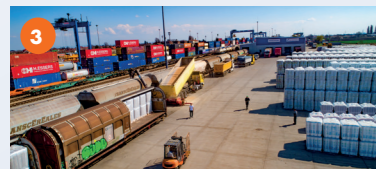

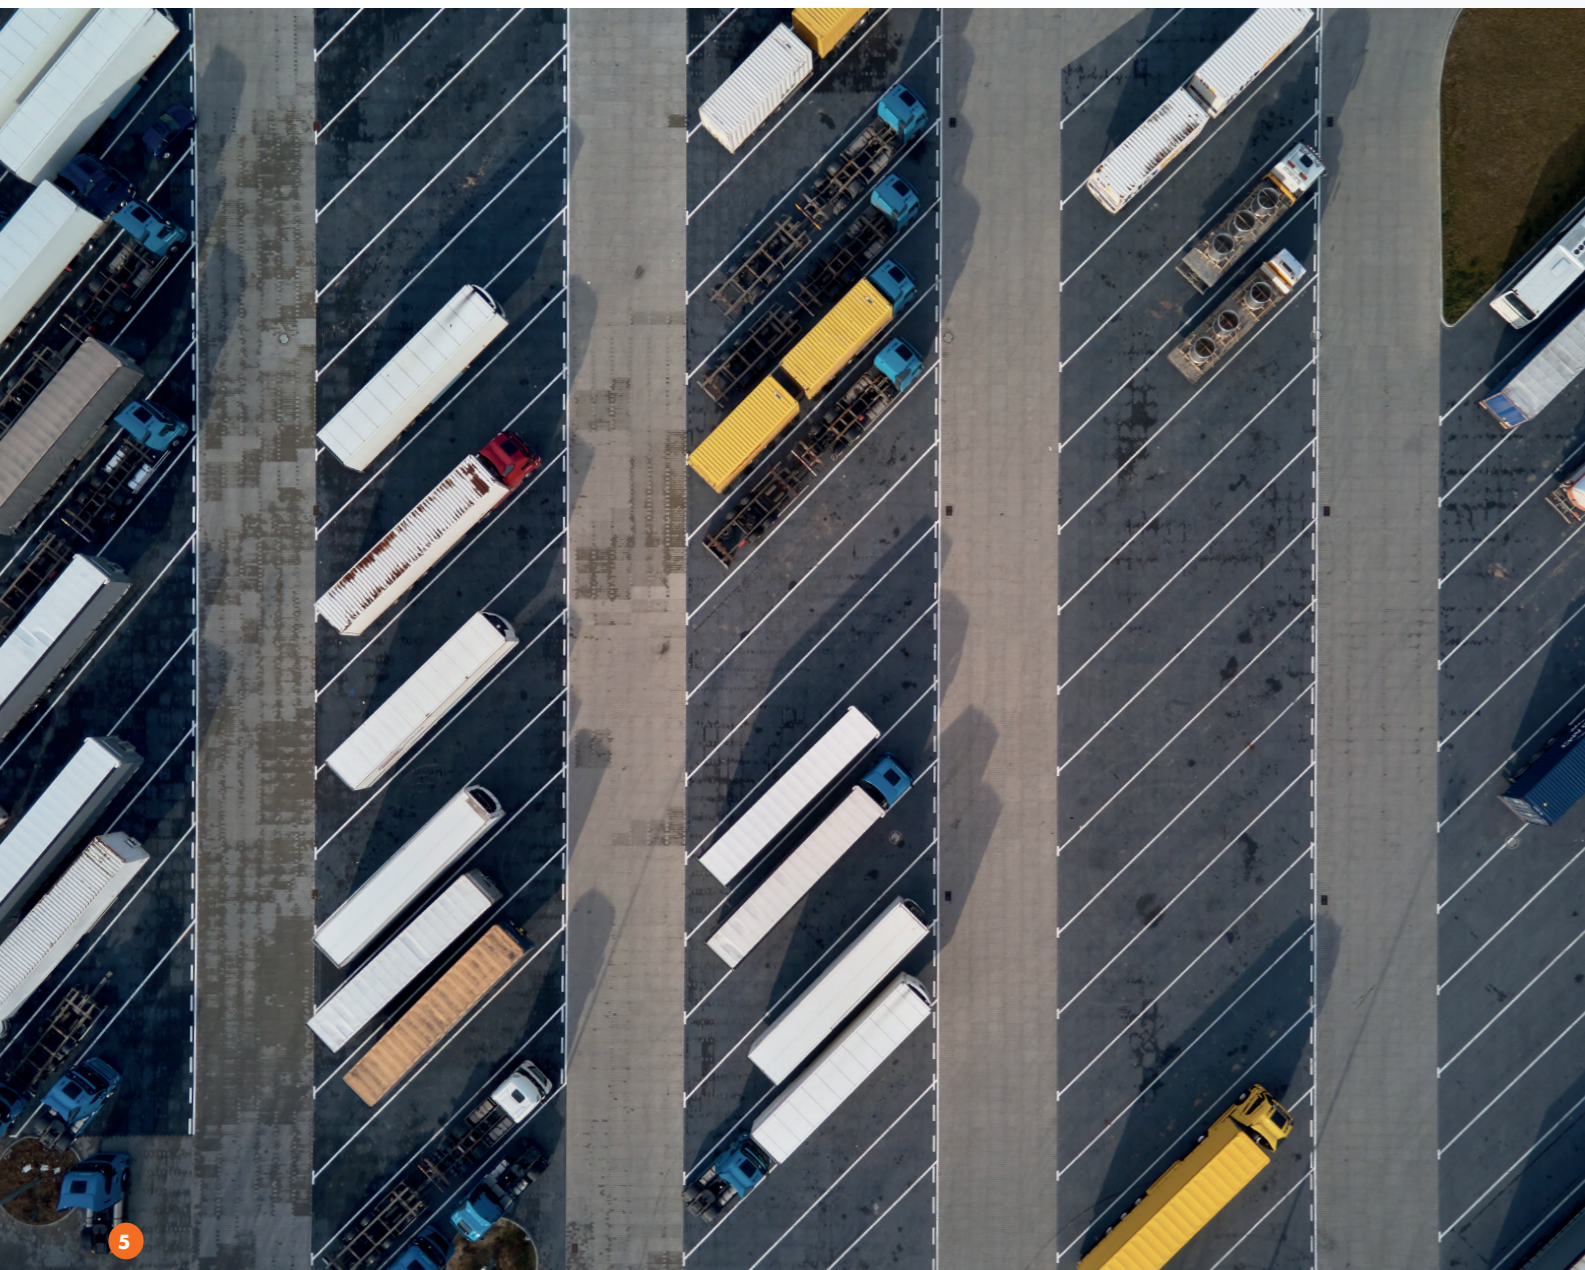

Railport Arad Intermodal Terminal, located directly next to the free Zone Curtici, is the biggest and most up to date inland terminal in Romania and also one of the biggest in the Central and Eastern European region. Railport Arad aims to play a major role as a key terminal operator of the CEE region focusing on serving both continental and intercontinental container traffic and planning to become an even bigger hub for cargo flow between Western Europe, Turkey and the Balkan region.
