- 49.9% of priority raw materials were sourced in organic quality in 2022; water consumption and waste generation were also reduced. Significant rise in investment in training and development for employees.
- ORIOR performs well in ESG assessments. First place for corporate governance by Inrate and with a CDP rating of 'B' above the industry average in climate matters.

The internationally active Swiss Food & Beverage group ORIOR is presenting its fifth Sustainability Report. The GRI-compliant report for 2022 provides detailed and comprehensive information about the Swiss competence centres' projects, progress and challenges within its "The ORIOR Responsibility" strategic pillar. Alongside the so far covered Swiss competence centres, the 2022 report also includes the Germany-based vegetable juice producer Gesa. Together with the separate sustainability reporting from the two international subsidiaries Culiner Food Group and Casualfood, this means that all ORIOR sites are now incorporated into a systematic sustainability reporting process.

Daniel Lutz, CEO of the ORIOR Group: "The topic of sustainability has once again become more important over the last year in spite of an ongoing difficult macroeconomic environment. I am glad to see that the process of anchoring "The ORIOR responsibility" in our competence centres and at all levels is progressing successfully – and also that we are continually improving in many areas of sustainability, as the report shows."

ORIOR – Excellence in Food

ORIOR is an internationally active Swiss Food & Beverage group. It represents a family of companies with a strong regional footing and popular brands and products that claim leadership positions in growing niche markets at home and abroad.

ORIOR's decentralised business model allows the individual companies in the Group to maintain their specific culture and identity, tailored to their workers and customers, and to create unique product, brand and concept worlds. They are joined together by a passion for culinary delights and true craftsmanship, a spirit of innovation directed towards market trends and needs, workforce entrepreneurship and strong common values.

Our management approach combines strategic thought and action at Group level with a high degree of autonomy at each competence centre. The ORIOR 2025 Strategy with its strategic pillars and the Group-wide key strategic initiatives – the ground-breaking "ORIOR New Normal", the intradisciplinary "ORIOR Champion Model" and the synergistic "ORIOR Bridge-building" initiative – are important success factors that will ensure steady value creation for all stakeholders.

*Motivated employees who enjoy what they do and who assume responsibility for themselves and their work are the catalyst for unlocking the extraordinary.
