# Delphi study

**Well-established methodology to reach consensus**

**Integrates perspectives of selected experts**
- Ideally 10-20 experts

**Surveying through several questionnaire rounds**
- It's online and anonymous
  - *Circumvents shortcomings of the group*

**The data from the questionnaires will be analysed**
- Several statistical tools
  - *E.g. the 5 or 7 point likert scale*
- Study supported by a Delphi specialist
