

# Witch's Brew Party Punch

This frothy punch really does look like a witch's brew!  
Make the punch just before serving so it will be super frothy.

## You will need:

1.5 litres fizzy water  
3 large scoops of sorbet  
A jug  
An ice cream scoop

## What to do:

- 1 Ask a grown-up to pour the fizzy water into the jug so that it's  $\frac{2}{3}$  full. You might not need all of the water.
- 2 Add one scoop of sorbet to the fizzy water. Watch carefully. It takes a few moments for the sorbet to start frothing up.
- 3 Slowly, add two more scoops of sorbet to the fizzy water until the punch froths up like a witch's brew!
- 4 You can add more sorbet to the punch if you like, but be careful or the witch's brew will spill over the top of the jug.

Makes  
**6**  
cups
