

Consent form for verification of qualifications

The University Medical Center Utrecht follows a quality management system that primarily focusses on quality of care and safety for our patients.

This system requires the hospital to verify the authenticity of all relevant qualifications (diplomas, certificates, registrations, and PhD degree) of all employees involved in direct patient care.

Granting permission

By filling in the form and signing it, you grant permission to:

- The UMC Utrecht to verify the relevant qualifications at those institutions that issued the qualification
- The institution or organization that issued the qualification to provide us with this kind of information
