

# Highfield **Level 3** End-Point Assessment for ST0201 **Supply Chain Practitioner (Fast Moving Consumer Goods) v1.0**

Government funding band – **£15,000**

Gateway requirements – **Level 2 English and maths (optional for 19+, please see funding rules)**

End-point assessment method – **Knowledge test, workplace project and presentation, professional dialogue and interview**

## Working in the supply chain practitioner

FMCG Supply Chain Practitioners will work in one or more supply chain functions. Typical duties could include forecasting customer demand as a Junior Demand Planner, liaising with the factories schedule production as a Junior Supply Planner, processing orders as a Customer Service Operative and working with hauliers and distribution centres as an Assistant Transport Planner.

They have a comprehensive understanding of the entire supply chain, are responsible for their impact on each function and strive to deliver the best value for their business and customer. Due to the high number of interactions both within and outside of the business, they need strong relationship building, influencing, stakeholder management and communication skills alongside sound analytical, information technology and numeracy skills, with an ability to work in a fast-paced environment with frequently changing requirements.
