 - this can be found in the EPA kit
- Discuss the activities you need to demonstrate with your manager
- Use the planner to plan how you will demonstrate the skills you have that are associated with the practical observation
- Review relevant legislations, regulations and your organisation's policies and procedures
- Be prepared to answer follow-up questions that further test your skills and behaviours

Don't

- Forget to bring your ID
- Forget to tell your colleagues and to obtain consent from patients who are present while you are being observed
- Panic if a planned activity cannot go ahead, you can identify another activity to be observed
