Working as a supply chain warehouse operative

Warehouse operatives work in a variety of warehouse environments. Their work activities include taking deliveries, checking for damaged/missing items, storing goods, moving stock by various methods, picking/packing orders, loading goods for dispatch, maintaining stock records and documentation, and cleaning.

They communicate with a wide range of people and customers and have a passion to meet customers' expectations by providing a quality service that encourages repeat business. A warehouse operative will often be required to be flexible and work shifts including 4-on-4-off, days, nights, evenings and weekends.
