Think about Real-life practical observation Level 2 Trade Supplier AP03

On the day of assessment, you will carry out:

A 180-minute observation

Face-to-face

Under exam conditions

With an end-point assessor

Key point

Your end-point assessor will need to stop the observation if you demonstrate any unsafe practices or breaches of professional codes of conduct.

Do				
	Review the criteria associated with the real-life practical			
	observation – this can be found in the EPA kit			
	Review relevant legislation, regulations and your organisation's			
	policies and procedures			
	Use the planner to plan how you will demonstrate the skills			
	and behaviours that are associated with the practical observation			
	Be prepared to reflect on your on-programme experiences			
	and learning and identify real-life examples			
) Don't			
	Forget to bring your ID			
	Forget to tell your colleagues and customers you			
	are being observed			
	Forget to have tasks prepared that you can complete if your			
	planed activity cannot go ahead or if the business is quiet			

- Results can take up to 12 working days to be confirmed
- Your manager/training provider will inform you of the results

Resits

 If you do not achieve a pass result on the observation of practice you can resit the assessment

Use the table below to plan and prepare for the practical observation

Standard area	Key points to remember
Specialist trade customer profile of the business	

Trade counter and telesales services	
Key principles of warehousing and stock control	
Technologies that are appropriate to the role	

Legislative responsibilities relating to the business, products and/or services being sold	
How personal	
responsibilities and	
performance	
contribute to the success of	
the team and the business	
Behaviours
